RAILWAY COLLISION.

Rear-end Pitch-in—An Engineer and a Fireman Killed.

SMITH'S FALLS, Ont., March 1.—Two Canadian Pacific freight trains were running west this morning, separated by the usual distance, when, three miles east of here, several cars broke away from the first train.

A stop was made to pick them up. The train was about to start again, when the rear train came round a curve in the road and dashed into the other.

Both engines were wrecked and the cars telescoped.

Driver Chas. Sines and fireman William Wilson, of the rear train, and both belonging to Smith's Falls, were killed.

The wreck took fire after the collision and several cars were consumed.

THE ELECTION.

Both Parties Working Hard and a Large Vote Being Pollt.

At an early hour this morning the workers of both political parties were active in the city, making preparations for the struggle of the day. Mr. Morrison's supporters were a smile of confidence while, on the contrary, the Grits appeared troubled and determined to settle their political lives early.

The Conservatives had the best of the conveyances in the city and all day they have been kept on the battle carrying voters to and from the polls. At noon in the Ward a large vote had been polled and the indications were that every available elector would exercise his franchise before evening.

Reports from Trenton and Sidney this afternoon were to the effect that a heavy vote was being polled, both parties working as if their lives depended upon their efforts.

Mr. Morrison's election was assured some weeks ago and when the ballots are counted this evening, the question of majority will be settled.

FINAL RALLY.

Alberta Hall Crowded to the Doors With Mr. Morrison's Supporters.

At last evening's Conservative rally in Alberta Hall all the arrangements for to-day's struggle were completed. All the workers were present and their reports from different parts of the city were of the most encouraging nature.

The hall was crowded to the doors by the solid Conservatives of the city and there were several of Mr. Morrison's supporters from Sidney present.

Ald. Starling, Chairman of the Central Committee, was a busy man assigning workers to different polling divisions and arranging other important details.

About 8:30 the speaking began and lasted for two hours. Among those who addressed the meeting were Sir Mackenzie Bowell, H. Corby, M.P., N. B. Falkner, W. P. Hudson, W. Carney, W. C. Mikel, Geo. Denmark, Walter Alford, Curtis Bogart, Dr. Tracy, John McKeown, R. C. Hulme and Ald. Starling.

Songs were sung by Messrs. S. E. Linnox, Chas. Herring, S. Burrows, S. Sinfield and others.

Mr. M. B. Morrison was unable to be present, but sent the following telegram: Curtis Bogart, President W. H. L. C. A., care of H. Corby, M.P.

TRENTON, Feb. 28.—I find it impossible to be with this evening; an important meeting here, preparing for to-morrow, detained me. A thousand thanks to Belleville workers for interest taken in the struggle for my election and better government. I know Belleville will do her duty to-morrow.

"FIRST THINGS FIRST."

The Rev. A. H. Ranton's Second Address.

Not, of course, so large a crowd as on Sunday night was the audience that met in Bridge St. Church last night, yet in view of all the counter attractions, it was large.

The choir, while not yet up to the strength Mr. Ranton desires, was composed of members of several choirs and volunteers.

Among the clergymen present we noticed the Rev. Dr. Cade, Rev. Amos Campbell, Rev. C. E. McIntyre, Rev. V. H. Cowart and Rev. W. J. Young, Redvershire. The church has a "campaign" look about it; white linen covers the carpet in the aisles; extra seating is provided; a large platform and courteous and active ushers.

The Rev. Mr. Ranton is a born organizer and commander; his quick eye takes in everybody; his almost chain lightning movements excel all the rest of the Rev. J. E. Hunter; his rapid transitions from one part of the service to another result in every moment being occupied and consequently there is no dragging.

Mr. Ranton's address last night was entitled "First Things First," and was based on St. Paul's words in 2nd Corinthians, 8th chap., 5th verse, "But first give your own selves to the Lord, and unto us by the will of God." The central thought was consecration to Christ. By argument he convinced his hearers of the necessity of it; by apt illustrations its power, and with powerful persuasion urged all to it.

The effect of the address was seen in the after meeting when, scores of Christians came and knelt in the front seats, as a proof of their willingness to re-consecrate their lives to their Master.

The address of to-night will be a timely one—"God's Elect and How They Get Elect."

ARE BEST IN THE WORLD.

Annual Report of the Fishery
Department Just Issued.

The Enormous Development of the Industry in Forty Years, 70,000 Men Earn Their Living by Catching 100 Finny Specimens—British Columbia Salmon Record Hits 100,000 by Long Odds—Horse Rides, Sitting-Top.

Ottawa, March 1.—The annual report of the Department has been issued. Canada's fisheries are the most extensive in the world. The eastern coast is given as 1,000 miles long, the Gulf of St. Lawrence as 7,180 miles, or more than double that of Great Britain and Ireland. While the salt water in-shore fisheries, not including identifications, covers more than 1,600 square miles, the fresh water area, or that part of the great lakes belonging to Canada, is only 100 square miles, not including the numerous lakes of Manitoba and the Territories, all stocked with excellent

In 1857 it was estimated that the sea and inland fisheries were worth a million and a half dollars. In 1897 they had reached \$20,400,000, an increase of \$208,-886 in value compared with the previous

The Different Species.

over a quarter of a million dollars; the herring catch, an increase of \$100,000;

the hardline cases, but not the softline cases. In the years 1860 and 1897 inclusive, the five principal commercial fisheries have yielded the following: Cod, 100,448,217 pounds, valued at \$3,779,370; Salmon, 1,445,000 pounds, valued at \$450,000; Herring, 1,000,000 pounds, valued at \$500,000; Mackerel, 287,859,835, valued at \$1,439,299. Over 70,000 men were engaged in the fishery industry in 1897. The aggregate capital of over nine and one-half million dollars. Besides the 900 fishing schooners and tugs, valued at \$1,200,000, there were 1,000 smaller boats, valued at \$1,000,000. There were 16,600 fishermen using 30,400 boats valued at over a million dollars, and the sea for a livelihood, using also rather 6,540 men. The value of the fishery product for 1897 amounted to \$1,114,950. This represents the 665 fishing establishments dispersed throughout the State. The Department of Fisheries has endeavored to keep them going, and over 14,000 persons find employment in the branch of the industry alone.

Modius Vivendi Licenses.

The number of United States vessels taking advantage of the modius vivendi license was nearly fifty per cent, less during the season of 1936. Only one license was issued during the year. About one million fry were hatched and successfully distributed in the season, and ninety millions of which were young coho.

During the last five years the value of Canadian fisheries has but slightly varied above twenty million dollars. It is estimated that the salmon taken in British Columbia totalled 49,000,000 pounds the season far beyond the records of previous year.

OPRATORS TO RESUME TO-DAY.

Mr. Semple Has the Floor for the Yukon Bill Debate.

The House of Commons meets to-day, on the debate on the Yukon Railway bill, will be continued by Mr. Semple. In the quarters the opinion has been expressed that the session will be reached Thursday of this week, but this is purely out of the question. If the discussion terminates by March 10, the bill will be brought forward and will finally be the earliest possible day for debate to take place. Mr. Foster will finally speak on Wednesday of this week. After that, it has been expected that the Government will press the committee stage, when Conservative objections to the measure will again be strongly pressed.

—Winnipeg Free Press, Winnipeg, W. C. North.

The Government has been advised that British survey ship *Egeria*, now at Umanah, B.C., will in April begin a survey of the coast north of the Strait of Juan de Fuca and the B.C. coast north as far as Wrangell. She was commissioned last year for this purpose, which is to be done in four stages. The Imperial Government's action at this time, considering the rush of traffic to those waters, will be greatly appreciated.

Old Servant Superannuated.

An Order-in-Council has been passed annulling Mr. P. O'Reilly, Dominion Commissioner for British Columbia, at Victoria. The duties of the office will be better performed by Mr. Vivian Collins, Esq., Commissioner for British Columbia. Mr. O'Reilly has been a valuable and capable service under the Imperial, Dominion and Provincial Governments. He has been a constant and efficient representative of Imperial Government long before British Columbia became a part of the Dominion.

The First By-Election.
Returning Officer Eugene Robillard has issued his proclamation for the election in the County of Russell. Nomination is due for Friday, March 11, and polling 18th.

General Notes.
The Supreme Court will take up the carlo list on Wednesday of this week. William McKenzie is here to watchokon Railway matters.

PAY UP, SAYS COUNSEL.

Washington, D. C., March 1. — The president yesterday sent to the Senate a record of the proceedings between United States and Great Britain in arbitration relating to the compensation for the seizure of British ships in the Bering Sea, under the treaty of Feb. 29, 1892. A statement of the Government's counsel, consisting of Messrs. Don M. Dickinson, Robert Lansing and Charles Warren, is appended, in which they

There are serious questions as to the validity of the award in the light of present and authority, yet in view of the story of the controversy and in the existing conditions as well as because of the comparatively small amount of the aggregate award we venture to express the hope that the result will be accepted by Government."

THE MISCREANT ARRESTED.

Civic Employee of Athens Was One Who Attempted to Assassinate the King on Sunday Night

thens, Mch. 1.—One of the men who attempted the life of the King of Persia on Saturday has been arrested. His name is Kurditz, and he is a minor employe in the Mayor's office here. He refused to give the name of his accomplices. The municipal councils throughout the country are addressing messages of sympathy to the king, and thousands of congratulatory telegrams are arriving at the palace.

Kurditz, who is 35 years of age, was formerly a non-commissioned officer in the Russian army. He belongs to a class of disappointed revolutionists, locally designated as the Kout-

An Offer From Ottawa for the Mortgages on Farms.

16 In reference to Acceptance by the Advisory Committee, Mr. Macdonald, at Osgoode Hall, Mr. Macdonald's Proposal Again Considered and No Action Taken—Further Statement by Mr. Langmuir—Before the Master.

Toronto, March 1.—Master-in-Ordinary Hodgins held a conference yesterday afternoon in the Hall with the Advisory Committee in connection with winding up of the affairs of the Farmers' Loan & Savings Company. Rev. Dr. Warton, Mr. Moffat, Alexander Patterson and E. R. C. Clarkson represented the shareholders; ex-Mr. Scott, Major Cooley, Mr. Macdonald and Mr. Albert Wright represented the creditors, and Liquidator Langmuir was also present.

After congratulating the creditors of the selection of their representatives to

Master tendered the committee some advice as to their duties. The outside pub-

might regard their dealings with the matter through spectacles that were colored politically, but it was the committee's duty to look through the clear light

business specialties. When the were doubt as to any question of law the Master referred the matter to the legal solicitor. Proceeding, the Master explained the present position of affairs. The company had been formed on March 31. Shareholders were liable for the amount of their unpaid shares, and directors were liable for payment of dividends if they had received notice that there had not been paid up capital. Liquidator was said who was liable. Two parties were liable by law. Shareholders were liable for the amount of their unpaid shares. Managers and auditors compelled to make up the sum. In the case of the Director, the liquidator was required to provide balance sheets put forward by the Director without scrutiny were not legal, and the liquidator was required to provide full compensation for the loss.

In the Leeds Company, the directors and auditors were compelled to make restitution. The Master added that the law applied to all companies. The law was applicable to the present case.

An Offer From Ottawa.

Liquidator Langmuir announced that an offer had been made for the company's shares, the value of which was \$107,000.

had been received from Mr. J. McLaren of Ottawa. Mr. McLaren had refused to raise the offer to \$95,000. Mr.

W. B. Ostrander stated that Mr. Henderson, his inspector, had valued the same mortgages at \$89,000, or less than Mr. McLaren's offer. The committee favored the acceptance of Mr. McLaren's offer, but the Master withheld his consent until he can make a personal enquiry. Hon. William Mulock's offer of \$150,000 for complete discharge of all his liability was left in abeyance, as the committee had previously passed a resolution to the effect that no offer should be accepted which compromise the liability of any director until a full investigation had been made.

Mr. Langmuir made a statement of the affairs of the company, showing that, nearly as could be ascertained, the co-

W. R. DEMPSEY, M. P. P.

An Enthusiastic Reception Tendered Him by his Friends.

Prince Edward Conservatives Elated With Their Overwhelming Success.

Ameliasburg Shows in a Demonstrative Manner the Newly Elected Candidate's Popularity, Where he was Best Known.

Never in the history of the County of Prince Edward has there been more enthusiasm and faithful labor put to better use by the electorate than during the political campaign that has just closed with such satisfactory results. Prince Edward County for about twenty-six years has been under the Liberal yoke, and there can be no surprise at the enthusiasm of the people at this time, after coming out of bondage and with such a promising future before them. Mr. Dempsey, the member elect, remained in Pictou on election day at the solicitation of his friends, so certain were they that the County would be re-elected. When the vote had been counted and the new from other parts of the County confirmed his election, a mighty cheer went up, and W. R. Dempsey, the Conservative candidate, was suddenly raised to the shoulders of four friends and above the heads of the hundreds surrounding him, in fitting terms thanked his friends for the honor they had conferred upon him, and congratulated them upon the magnificent victory which had won. A procession was formed and proceeded through the principal streets.

On the C.O.R. next day Mr. Dempsey left for his home in Ameliasburg, amid the cheers of his friends who had accompanied him to the station.

At Carrying Place he was met by a number of friends, including Mayor Morrison, M.P.P. After the usual congratulations, Mr. Dempsey, in company with his family, who had met him at the station together with others, left for home about noon.

During the drive he was greeted with cheer upon cheer along the way and decorations of various forms, and flags too numerous to mention, bore evidence of the esteem and popularity of the member elect in his own native township.

Mr. Dempsey had only a short time to rest when, at Carrying Place, he was again driven to the yard surrounding his home. A stranger would have at once concluded one party in Ameliasburg. Mr. Dempsey's Reform and Conservative friends joined hands in showing the great pleasure the result of the election had brought them. Mr. Dempsey could do nothing but shake the hands of his friends and gratefully acknowledge their congratulations.

About 7 o'clock a long procession drew up headed by the Ameliasburg band, under the leadership of W. C. DeLong. By this time upwards of 200 persons had assembled in front of the house and in the road, while inside the house many ladies were assembled. A chair was procured, and with Mr. Dempsey comfortably seated thereon, he was lifted upon the shoulders of friends and carried in a most cheering manner, carried to the road and in a few words invited every one present to come into the house and partake of his hospitality.

After the most cheering cheer, Mr. Dempsey, who had conferred upon Mr. Dempsey, he had prepared abundant refreshments for any number that might come. It was open house, and all were welcome. The full adjournment of Prince Edward's champion partook of the good things provided. After a couple of hours pleasant enjoyment the band left up and out of the house and rendered appropriate music. Mr. Dempsey, in the most pleasant language, thanked his Conservative and Reform friends for the honor they had shown him and his family by receiving him in his return home in such a magnificent manner. He could assure them he would be faithful to the trust reposed in him and would ever, during the time he might have the honor of being the representative of Prince Edward, discharge his duty honestly, fearlessly, impartially and loyally; and he was sure such a course would commend itself to his constituents, in whose behalf he was his duty to act.

Short addresses were made by a few others.

It would be invidious to name any of those who were present. All were alike in their enthusiasm and desire to pay respect to a worthy man.

Boys' Reefers.

Heavy ulsters and overcoats worn by boys will not have to be discarded for reefers. This particular line of goods has always been one of Oak Hall's specialties. We have on hand now nearly 600, made of serge and cloth, heavier etc. from \$1.50 to \$5. We want to keep our customers supplied for carrying the best assortment of boys' goods in Belleville.

A "Birth Day Social."

A highly successful birthday social, under the auspices of the Ladies' Aid of the Reformed Episcopal Church, was held at the residence of Rev. J. S. Trotter last night. An excellent programme was provided, and the receipts of the evening totaled about \$23. Rev. Mr. Trotter was chairman, and the following programme, evidently planned by the ladies, was presented: Selection, Ford's (treasurer); anthem, the Choir; reading, Mr. Craig; instrumental solo, Miss Orr; song, Mr. A. Rutten; quartette, Mrs. Craig, Mrs. Ford, Messrs. Barrett and Rowland; chorus by six young ladies; recitation, Mrs. Barrett; vocal duet, Messrs. Thompson and Large; anthem, the Choir; melody duet, Messrs. Turner and Rowland; God Save the Queen.

We Sold Two Nice Bills

Of Carpets on Saturday.

One of which was to people who had looked through all the Carpet stores in Belleville and Pictou, yet we made the sale. There is a strong argument in this which seems to be entirely in favor of our CARPET DEPARTMENT. Kindly remember when you are out to buy a new Carpet. If up-to-date goods, low prices and a hustler will do it, we shall double our carpet sales this year.

To Get the Best Results

From this Wall Paper Sale of ours, there are a few important points for customers to consider.

We are speaking now of our customers, and not of our own interests.

In the first place, the papers we are selling so cheaply are broken down and we intend to buy paper of you, should certainly measure the rooms you intend to paper and we will estimate the quantities you require.

We have hundreds of single and double room quantities as well, but if you do not know the quantities you require, there is a risk all round.

The rules that govern this special sale, and which we must live up to, are as follows:

1st. Cash must accompany every order.

2nd. No papers will be laid away or reserved unless a substantial deposit is paid upon them.

3rd. No papers will be taken back or exchanged after they are sold.

By bringing your measurements we will estimate the quantities, and should our estimate be too large, we will under these conditions only take back such wall paper as over-ordered, the work of papering is completed.

4th. No rolls of Wall Paper will be sent out on approval. We will give small samples if customers desire them.

These conditions refer only to our "SALE" Papers and not to our regular stock.

The very low prices at which we are selling these goods make the above conditions of sale positively imperative.

We would incidentally mention that our stock of regular papers was never better assorted or in such excellent condition and design.

Bargain Tables.

Our Bargain Tables are booming—they're the talk of the town.

AN AUSPICIOUS OPENING

Messrs. Frank Broderick & Co. Make a Good Start.

For weeks past workmen have been busy fitting up the store at 320 Front st. for Messrs. Frank Broderick & Co., importing tailors. There has been a good deal of pleasurable anticipation on the part of the sterner sex as to the opening of the business of this firm.

The store opened its doors on Thursday morning, and both that day and Friday were busy ones for Mr. Broderick and his staff. Several gentlemen called out of curiosity, but left before they went out. Speaking to a reporter this morning Mr. Broderick said he was well satisfied with his opening in Belleville and was already assured of a liberal patronage from the gentlemen of this city.

The stock consists of the products of the best domestic and foreign looms, carefully selected and fully guaranteed to customers. Mr. R. H. Seale, late of Boston and Montreal, has charge of the cutting department, and he employs a number of skilled assistants. Mr. Broderick will employ about twenty-five hands. The firm has an extensive connection throughout Western Ontario and the North-West Territories, where they have been represented by travellers for the past six years, and this branch of the business alone is extensive.

While all branches of the tailoring business will have the careful attention of the firm, specialties are made of military tailoring, bicycle, riding and golf suits.

The store has been handsomely fitted up with a metallic ceiling, new hardwood floor, newly painted woodwork, tinted walls, a new office, work rooms and every convenience that the business requires. Those who call to inspect the stock are not pressed to purchase, but are sure to find something in the large display of cloths to please them.

The firm's motto is:

"MATERIAL—Product of the world's best looms."

MAKE—Perfection in style and fit.

STUDY—Latest London and New York fashions."

"AFTER THE BATTLE."

Under the above heading the Ottawa Free Press of the 2nd inst. says:

"Liberal workers are quite satisfied that the party as a whole voted the straight ticket."

In another column of the same journal will be found the number of votes polled for the two Grit candidates, as follows:

Lumsden (Protestant)..... 4,770

O'Keefe (Roman Catholic)..... 2,500

Less for O'Keefe, as a whole, voted the straight ticket, how is it that O'Keefe was left in the lurch? There is but one interpretation. Either the Protestant Grits knifed O'Keefe or there were 250 Conservative votes cast for Lumsden. If the latter, then it is an admission that there is a clear Conservative majority in the city of Ottawa. We incline to the latter view of the case—that O'Keefe was knifed by his professed Grit friends. This is confirmed by the fact that Powell collected three votes more than O'Keefe.

Mr. O'Keefe should have expected nothing else. It was only a few weeks ago when the "Edward Blake Club" was formed in Ottawa by a number of Irish Roman Catholics, one of them declared openly that the Conservatives had done more for them than the Liberals, though not a tenth of them supported that party. Well, if they ally themselves with political cut-throats they should not grumble at the treatment they receive.

ANOTHER RAID UPON THE DOMINION TREASURY.

The Lieutenant-Governor of New Brunswick, in his speech, on opening the last session of the New Brunswick Legislature, says:

"A claim of long standing against the Dominion Government on account of eastern extension has been presented to me by a delegation of my Government, and I have reason to believe that a reply will be promptly given in the early days of this session. The merits of the demand and the reception accorded by the Minister at Ottawa to the representation made on behalf of the province encourage the belief that such reply will be favorable."

This, our readers will remember, is an old claim which was rejected over and over again by the Conservative Government and also by the Mackenzie Government. It will be interesting to watch what the present men will do. Is this the price offered by the Minister of Railways and Canals for New Brunswick support? We shall soon learn.

Two Warnings.

Loosing flesh is one and lacking cough is another. If you come together the warning is loud and hard one. Scott's Emulsion does some of its best work in just these cases. It prevents consumption.

Uncle Sam and Jack Cuckoo.

Washington, March 5.—After a debate lasting several days the Senate today afternoon passed the bill extending the homestead law, and providing for right of way for railroads in the district of Alaska.

Section 13, providing for certain land concessions to Canada in lieu of privileges to be extended by the Dominion Government to this country, was passed after some discussion.

Progressives Have 20 Majority.

London, March 5.—The result of the election for members of the London County Council is that the progressives (Liberals) have secured 20 seats and the moderates (Unionists) have returned 10 of their candidates.

The election in Hackney was postponed owing to the death of a candidate.

Lord Darnley has been re-elected to the London County Council, representing Wandsworth.

Keen Well.

Easy to say, but how shall I do it?

In the only common sense way—keep your head cool, your feet warm and your stomach rich and purely taking Hood's Sarsaparilla.

Then all your nerves, muscles, tissues and organs will be properly nourished.

Hood's Sarsaparilla builds up the system, creates an appetite, tones the stomach and gives strength. It is the people's Spring Medicine, has a large sale and effects more cures than all others.

The Close Closings—Political Gossip—Official Returns.

Toronto, March 5.—The true state of affairs is as suggested below, and the calculation is made possible by the official returns received yesterday. As will be seen by a special despatch from Ottawa Mr. Holliday goes into the contest in Russell to try to win the seat, and should he be successful, which there is hardly room for doubt in view of the past record of the constituency, the Government will not be in a position to go on. THE CLOSE RIDINGS.

A Lot of Close Contests in Which Results May Have the Effect of Tossing the Tables.

Yesterday's election in connection with the recent election is very favorable to Mr. Wilton, and it is hardly to be wondered at that he is in the best of spirits. Mr. Wilton is confident that matters will come out all right.

Without doubt, the Conservatives stand to gain in results, as the returning officers were all friendly to the Government and would be hardly likely to do the Liberals candidates. Indeed, carried by narrow majorities by the Liberals, a result may be reached, and the Conservatives elected by narrow majorities were contented by their own vote, and the Liberals, carried by narrow majorities, were contented by their own vote.

The old contention, that they always go with the Government will hardly apply in this case, as the question would arise, who is the Government? There can be no doubt that the Conservatives lost a number of seats through the lethargy of their friends, who, with a civil recollection of past defeats in Ontario divisions, thought Mr. Wilton's success an impossibility, having arranged against the combined powers of the Provincial and Dominion Governments. Now every thing is changed. Mr. Wilton has proved his strength, and the Conservative party, with victory within their grasp, will fight with renewed vigor, and in the struggle they will have the active assistance of the people who had shied from Liberalism in the past.

A good batch of by-elections are expected. The following are the constituencies won by majorities of less than 100.

FARRER IN WASHINGTON
PROPOSAL THAT AN INTERNATIONAL COMMISSION BE APPOINTED.

Washington, Feb. 26.—Edward Farrer, of Toronto, is here in consultation with Senator Henshaw and several other members of the Public Lands Committee, in regard to the proposed international commission to be appointed to investigate the boundary between the United States and Canada.

Mr. Farrer addressed the committee and made a very plausible case. With regard to the refusal of Canada to permit American fishermen to fish in the Gulf of St. Lawrence, he pointed out the fact that the Dominion Government refused the monopoly given to the Yukon Indians.

Mr. Farrer also pointed out the fact that the Dominion Government refused to permit American fishermen to fish in the Gulf of St. Lawrence, and that the Dominion Government refused to permit American fishermen to fish in the Gulf of St. Lawrence.

Mr. Farrer also pointed out the fact that the Dominion Government refused to permit American fishermen to fish in the Gulf of St. Lawrence, and that the Dominion Government refused to permit American fishermen to fish in the Gulf of St. Lawrence.

"BOATLEBURY'S LEAVING."

Mr. Boatlebury is leaving Belleville because his wall paper business has outgrown the facilities afforded by this city. He must make his headquarters in a large town, and he has chosen Toronto, making this place a distributing point for his branch houses. A local cotton merchant has intimated that this progressive citizen was leaving here "because we did not have better transportation facilities," namely, C.P.R. connection. Boatlebury, however, is a man of business, and it is on account of transportation solely, the question might be asked, why does Mr. Boatlebury not go to Guelph, to Hamilton, or to other places where they have both railroads and roads are cheaper than in Toronto? The question is easily answered. It is not railroads alone he wants; it is a trade centre, and in Toronto he believes he will find that which will meet his requirements.

Let us say before closing that the management of this paper is equally keen with its contemporaries and the citizens generally for the advancement of Belleville. We are in favour of C.P.R. connection or anything else which will do the city good; but we do not propose or suggest that our city fathers give up the whole city or pay an exorbitant price for increased transportation facilities or anything else, solely because we are losing an enterprising citizen from our midst.

A DOUBLE DROWNING.

Father and Daughter Drowned in the Bay of St. Lawrence, N.S.

Toronto, March 7.—A double drowning fatality occurred on Saturday evening at the Hotel de la Baie, near the mouth of the St. Lawrence, N.S. A father and daughter, both of whom were in the hotel, were drowned when the hotel was struck by a heavy sea.

Early in the evening Mr. McDonald paid his brother a visit, and at 9:30 he called on his daughter, who was in the hotel. He had not got his provisions for Sunday's use, so the daughter's husband, who was in the hotel, was asked to go to the store to get the provisions.

When the party reached the edge of the cut they stepped into an old punt that was lying on the shore. Mr. McDonald and his daughter's husband were in the punt, and the daughter was in the punt.

Mr. McDonald worked the punt, and all went well until the party was in the middle of the cut. The punt was then struck by a heavy sea, and the party was thrown overboard.

Mr. McDonald's daughter, who was in the punt, was thrown overboard. She was then rescued by a fisherman, who took her to the shore. She was then taken to the hospital, where she died.

THE POLITICAL PICKING.

Parties Politely and Secretly Fighting Out Valuable Point—Battle of the Klondike.

Toronto, March 7.—The little change in the political situation, politicians are saying, is little, yet there is a great deal of it. The Liberal party is in a very strong position, and the Conservative party is in a very weak position.

A Test Case to Be Made in the Farmers' Loan.

Write to Be Issued Against the Farmers' Loan. William Mulock, Q.C., M.P., and Other Directors Severally and Collectively. If This Case is Successful All the Other Shareholders Will See Times Will Be Lively.

Toronto, March 7.—An action is about to be brought against the Farmers' Loan and Savings Company which will establish the degree of responsibility resting upon the directors and auditors of the company, and also decide whether or not those holding shares shall lose the amounts they invested with that company.

As a preliminary to this action, an application will be made to-day to the court to appoint a receiver of the company's assets, and to order the company to be wound up.

The issue of the action will be whether the directors and auditors of the company are liable for the loss of the company's assets, and whether the company should be wound up.

New Suits For Boys.

The Oak Hall are hoping up new spring suits every day now. Yesterday we received some very pretty novelties in the "little boys' suits." The Fantasies will have a big run this season for boys 4 to 8 years of age, and we are prepared. Pretty little sailors, made up in new and novel ways, are also to hand.

It Was a Fake.

The Ontario published a half column article last evening relating to a "One-eyed Conley," of pugilistic fame. It was a fake pure and simple. The Alleged Conley was matched yesterday to box a few rounds last evening with a local pug, and that also turned out a fake. Conley could not hit his man and the referee stopped the "go" when he saw the spectators were getting tired. Two local boys boxed three rounds as a preliminary, and they mixed things up in a pretty lively manner.

FARMERS' WIVES KNOW THE VALUE OF DIAMOND DYES.

They Will Use No Other Kind.

No class of women are more deeply interested in successful and economical dyeing than are the wives of farmers. For long years the Diamond Dyes have been their choice. They know that they can depend upon each and every color made, and always obtain the most perfect results.

Mr. Edward Balsam, Bear River, N. S., has the following opinion of the Diamond Dyes as follows:

"I am a farmer's wife and send a word of praise for the Diamond Dyes. They are just what you represent them to be. We never like to be without them in the house, they are so useful and give such rich and lasting colors."

Not Finished.

The West Elgin recount had not been finished up to 2 o'clock this afternoon.

CITY FATHERS DELIBERATE.

Telephone Company Cannot Use the Market Square Yet.

Repairs to the Market—No Accident Insurance This Year—The Deputation to Ottawa—A Number of Inquiries.

The City Council met last evening and transacted a lot of more or less important business. There were present His Worship Mayor Johnson, Ald. Chisholm, Lusk, Bogen, Harris, Pantar, Grills, Donahue, Petty, Naylor, McGowan, Finnegan, Ashley, Lennox, Loit, Doyle, Clarke and Wallace.

The Auditor's report was read and referred to the Executive Committee.

Two accounts for gas lamps and electric street lights were read and laid upon the table.

When the reports of the various Committees had been read the Council went into Committee of the Whole. Ald. Pantar in the chair.

The accounts recommended by the various committees were passed without discussion.

NO ACCIDENT INSURANCE.

The Executive Committee recommended that no accident policy be taken out by the City this year.

Ald. Bogart said the Company in which the City was insured last year asked \$100 more this year, and it had been thought by the Committee that, with a competent City Auditor and a reliable City Surveyor, they could take their chances.

The recommendation passed.

REPAIRS TO THE MARKET.

The Market Committee recommended the acceptance of the tender of Alfred & Leary for repairs to the market building.

Ald. Wallace, McCammon and others objected to the recommendation, on the ground that they had not been notified to attend the meeting.

The Mayor thought the protest should be noted, as the Committee should be conducted according to the rules.

Several other members objected, holding that neither Ald. Falkner nor any other man should run a Committee to suit himself.

Ald. Wallace withdrew his objection on the ground that perhaps it was the caretaker's fault that the members were not notified.

THOSE TELEPHONE VOICES.

The joint Committee of Public Works and Market and City Property recommended that the Bell Telephone Company be given permission to erect four poles on the market.

Mayor Johnson said he was in receipt of a protest from Ald. Falkner, who claimed that the Committee making the recommendation was not legally constituted, and he could not give it the sanction.

This matter was a special question and should be dealt with by the special Committee as such, and he must hold it as illegal.

Ald. Lott said Ald. Falkner had told the members of his Committee not to come to the meeting, as there was going to be no meeting. He objected to this underhand way of doing business, and the sooner it was put a stop to the better.

The Mayor said he had a right to attend every Committee and he had not been notified to attend the special question. He would countenance no underhand work as long as he was in the Council.

Ald. Pantar ruled that as the matter was special the joint Committee should have been specially notified, so no action was taken.

Two accounts for gas lamps and electric street lights passed.

THE DEPUTATION TO OTTAWA.

Ald. Bogart reported on the visit of himself and Mayor Johnson to Ottawa to oppose the application of the Bell Telephone Company for an order-in-council to shorten the line to increase their rates. The matter was discussed by the Council, and the strongest of any made before the Railway Committee, and he believed the petition would not be entertained.

Mayor Johnson pointed out that the Bell Telephone Company asked power from Parliament to increase their rates. His application to Belleville means that whereas we now pay \$25 per year for telephone, if they got the power asked the Company could charge \$50 per year. He thought, in the interest of the business community, the question should be opposed. The Company had created a telephone appetite and then they tried to feed their customers. If the Company are using money in the large cities, they must be making in the small places like Belleville, for, as he showed from their balance sheet, the Company were making money. This Company, by asking for the privilege to use your market square, will not give you something for nothing.

AN OVERSEER APPOINTED.

Ald. Harris drew the attention of the Council to the fact that they had not appointed anyone to oversee the repairs to the market.

Moved by Ald. Bogart, seconded by Ald. Lennox, that Walter Aford oversee the work, for which he be paid \$10.—Carried.

INQUIRIES.

Ald. Petty asked if the Mayor had any word as to the appointment of an Assessor.

The Mayor said he was waiting for Mr. Whitney to come into power, when he expected the Assessor would be appointed.

Ald. Lusk asked if any negotiations had been commenced towards taking over the Water Works or getting a renewal of the contract.

Ald. Pantar asked if any letter had been received from the Abbott Bros., Montreal.

Ald. Wallace said he had a letter from the firm referred to, but they had not yet decided what steps they would take.

Ald. Lennox asked if the Belleville Company had given the City a statement of the business, as he understood the Company were not now manufacturing suits here, as in previous years.

The Clerk said he had a communication from the Company and it would be laid before the Executive Committee.

Ald. McCammon asked if the Auditors' report would be presented.

Amputated His Arm.

The Brockville Times says, concerning the accident to John Pligier: "After an examination it was deemed necessary to amputate the limb close to the shoulder."

Dr. Cornell and Robinson. He was also badly bruised and shaken up. He passed a very restless night and on a couple of occasions it was thought he would not survive the shock. To-day he is reported improving as well as can be expected, and no fatal results are anticipated. His father, who is a conductor on the G.T.R., running out of Belleville, came down yesterday to see him. It will be some days before he can be taken home. He is about 28 years of age, married, and had been in the employ of the G.T.R. as brakeman since last fall. He had a brother killed on the R.W. & O.R.R. at Morrisstown a few years ago. Much sympathy is felt for the unfortunate young man."

"TIT FOR TAT."

LET US GIVE THE YANKEES A DOSE OF THEIR OWN MEDICINE.

The following portion of the Mail and Empire's article on the latest phase of the Yukon Railway deal and the action of the Senate of the United States with regard to the navigation of the Yukon River is so timely and so forcible that we give it in preference to any remarks of our own on the subject:

"A new condition has now arisen. We desire to build a railway for the purpose of the Yukon trade, and with this end in view have made a bargain, giving a railway monopoly and a vast area of mineral lands to the contractors. As our railway terminates at the United States boundary, a Government blessed with an ordinary degree of foresight would have taken measures to secure for it such international arrangements as might be requisite to its satisfactory operation. But the Napoleonic Mr. Sifton—his friends in the press now designate him the young Canadian Napoleon—was perfectly oblivious to the necessity for action of this nature. He was utterly blind to anything except the promotion and the pushing through of the deal which gives so much gold land to his friends, and with which his name will forever be associated. Now that the deal is 'well on' Uncle Sam has whipped out Sir Wilfrid Laurier's policy, and has 'humped' it with the Yukon matter, as per proposition, practically declaring to Mr. Sifton and Sir Wilfrid that if the deal is to be a success, then the fishery policy and other concessions 'as well must be agreed to. Mr. Sifton and Sir Wilfrid have both acted unwisely, the one in not looking ahead, the other in antagonizing Canada's rights when he was in opposition. But that does not excuse the United States, nor will it justify in the minds of the people of Canada the position which that country takes on this question.

"The Yukon district is ours. It is open to United States citizens as well as to Canadians. We are giving away vast areas of land, vast sources of revenue, in order to secure railway communication by way of the Pacific. That communication is as necessary to citizens of the United States, who pay nothing for it, as it is to Canadians, who sacrifice so much in order to get it. If, when we are giving so much to provide a convenience that is so useful to the United States as it is to the Canadians, the Congress at Washington insists upon placing obstacles in the way, and demands enormous, extraordinary and irrelevant concessions as the price for the removal of these obstructions, there is but one thing for Canada to do. We shall have to adopt the United States mining policy, that ought to have been law long ago. As the United States declines to allow Canadians or other British subjects to conduct mining operations in the Republic, we shall have to order that no more United States citizens shall enter the Yukon to gather in our gold, and that those who are there now shall not be granted a renewal of their licenses. With the terms of the Yukon railway deal we do not agree. They are excessive. They give too much. But that is our domestic business. If the United States tries to render that more onerous, or forces us to give larger concessions in order to get to a Canadian port and to avoid United States obstructions, then out of the Yukon every United States miner will have to go."

Our contemporary's advice to the members of both parties in Parliament, to unite in resisting the aggression of our neighbors, hits the nail on the head. But what can be thought of Sir Wilfrid Laurier, whose speeches, when in opposition, suggested the action which the United States has taken?

The fact that Mr. McMillen, who stands as near to the Government as does any member of Parliament who is not a member of the Administration, has reintroduced his bill which would meet out to the citizens of the United States the same treatment, as to mining, that we pay due to all allies, is significant. Mr. McMillen's measure ought to be adopted by a practically unanimous vote.

FODDER CHEESE

ITS MANUFACTURE HURTFUL TO THE TRADE AND SHOULD BE STOPPED.

The cheese men of Montreal are up in arms on the subject of fodder cheese. At a meeting of the Butter and Cheese Association the other day the members stated plainly that should the manufacture of fodder cheese continue, Canada will not only be unable to hold her own in the English market, but will lose ground rapidly. At the special meeting of the cheese

THE CONSERVATIVE CHANGES

Recounts and Protests Are Yet to Be Reckoned With.

Mr. Whitney and a Few of His Supporters in Toronto. Mr. Healy's Note to the Conservative Party in the House of Commons. Recent Recruits in a Timid-Regiment in West Union. To the Senator Drayton-Kingston to Be Protected.

Toronto, March 8.—The Conservative Party in Ontario are brightening. The Liberal Government, according to the reports, are so far from the counts, as the party returning officers are so far from the counts, that the voters had to wait for the matter to be going before our judges, where the ballots will be counted fairly, honestly and impartially. It is likely to fall in with the Government candidates. There is ample room in the butter market for all who can manufacture, if of a good quality; none other will sell in the English market.

Chairman Cannon's \$50,000,000 Measure of Peace.

The Appropriation Committee at Washington Favorably Reports Upon the Measure to Appropriates \$50,000,000 for the Defense of the United States—Spain Does Not Expect War—Congressmen Do All Right.

Washington, March 9.—The Appropriation Committee of the House at the meeting yesterday morning unanimously agreed to report favorably the bill to appropriate \$50,000,000 for the national defense. The galleries of the House were packed to the doors and long lines of people, unable to obtain admission, gazed about the chamber. Public interest in the bill to the bill appropriating \$50,000,000 for the national defense was reflected in this large attendance in the galleries. On the floor almost every member was in his seat.

As soon as the journal had been read the Speaker rapped for order and, amid a deep applause, Chairman Cannon arose and presented the measure, appropriating \$50,000,000 for national defense. It included also several other items, among which were \$10,000,000 for the coast guard.

Not a War Appropriation. Mr. Cannon opened the debate on the bill. Coming to the all-absorbing item, he said that in the House of Representatives the bill was introduced by the President. He said that the bill was introduced by the President. He said that the bill was introduced by the President.

It is not a war appropriation, said he emphatically. "I say that in my judgment, measuring my words, that it is a peace measure. (Great applause.) The Government of the United States would not, if it could, touch upon the rights of any nation on earth." (Renewed applause.)

311 AYES, NO NAYS. Even the Speaker Voted for Cannon's Bill Appropriating \$50,000,000 for United States Defense.

Mr. Cannon was followed by almost every member of the House. In making short and patriotic speeches, Mr. Blingham of Pennsylvania caused the only dissenting note that was heard. While supporting the bill on general principles, he characterized the day's proceedings of the House as "yellow dog journalism." He was roundly hissed by the majority of the members, who derided the speaker's remarks. When the question was put on the passage of the bill, the whole House rose in a body and cheered. He did so, he said, at the request of many members, who desired that every member should go on record. Every member present voted for the bill, many of them assuming the responsibility of breaking their pairs in order to place themselves on record. At the conclusion of the roll call the Speaker but his name called, an unusual procedure, and, amid great applause, voted for the bill. When he announced the vote, 311 ayes, no nays, an enthusiastic demonstration occurred.

Spain Does Not Expect War. Madrid, March 9.—A semi-official news agency here has issued the following announcement: "After being long expected, there is general belief now that peace will not be broken, and that the relations between the United States and Spain will continue amicable."

Political opponents assure that the legislative session is completely wrong in attributing an aggressive tone to the diplomatic relations between the United States and Spain. It is not a single moment's loss their friendly character.

Les Always Behind Night. A semi-official note last night declared that the Spanish Government has not received any complaint regarding the manufacture of fodder cheese in the United States. On the contrary, Captain-General Blanco of Havana, La Vega, the incident serves to explain the origin of the bill between the two countries.

Guests Having Friends to Dismiss. Will please give notice at the office so that calls may be provided as the table. (There was a change in the table.) The above absurdity printed on the next will be called to the inside of each room, and the most innocent guest knows that it doesn't mean what it says. Why not say, "We want party for what we furnish and are not content with the quality of the party of our guests to believe that we are getting it."

OBITUARY.
JAMES GILBERT.
A week ago to-day James Gilbert, who
was employed by R. J. Graham packing
apples in the market basement, contracted
a heavy cold, which developed into pleu-
risy. Despite all his physicians
could do he died last evening at his home
on Pope St. Deceased was a son of the
late Abel Gilbert, of Sidney, where he was
born 40 years ago. He married a daughter
of Mr. Jesse Carr, of Sidney, and she sur-
vives him. He was a brother of Mr. A.
H. Gilbert, of New York, and his mother
and two other brothers—Edward and Her-
bert—survive. The funeral will take
place on Friday afternoon at 2 o'clock to
Halloway St. church and thence to the cemetery.

Men Who are Bald.
See Prof. Dorenwend, the well known
hair goods artist, who will be at Quinte
Hotel on Tuesday, March 22. His system
of replacing lost hair on bald heads is
really marvellous. Any doubt as to this
fact can be quickly dispelled by examining
his goods. There is not the slightest trace
of falzness, and besides improving one's
appearance, it affords protection against
colds, catarrh, neuralgia, &c. The wearer
soon realizes that he has it on, it is an
light and comfortable. Over 34 years in
use and the number is increasing daily.

NEW CLOTHING STORE.

Messrs. Quick & Robertson Will Open
on March 13th.

The two stores in the Caldwell block,
next door to the Anglo-American Hotel,
have recently been the scene of unusual
activity. Workmen have been engaged for
some weeks remodeling the premises, and
tearing out the partitions, making one
large store. The front has also been
changed and large show windows put in.
The work was completed a week ago and
over since Messrs. Quick & Robertson, the
firm which has leased the store, have been
busy arranging a brand new stock of ready-
made clothing and gents' furnishings.

The two young men who have come to
our city to do business have been for years
connected with the leading clothing houses
in Lindsay, and have learned the trade
from A. to Z. Lindsay papers speak very
highly of both young gentlemen and regret-
ted their departure from that town.
Perhaps their leading drawing card at
their opening will be the fact that every
article in the store is new. The patterns
in the different garments are the latest that
can be bought, while for workmanship, fit
and finish, their clothing will compare favor-
ably with the finest ordered goods.

They will open their doors on Saturday
morning next when the citizens of Bel-
leville and the people of the surrounding
country will have an opportunity of inspect-
ing the stock. It will enable you to see
what they have, even if you do not want
anything in their line just at present.
Read the advertisement of Messrs.
Quick & Robertson on another page. It
may save you money.

More \$1.50 Pants.

What do you think? The Oak Hall re-
ceived 50 pairs of \$1.50 pants last week
and they are all gone. We are speaking
of one particular line at this price.
We will have another lot of 100 pairs in
to-day. These are the best for the money
ever offered in Belleville. We think so
and the customers think so.

LETTER FROM SKAGWAY.

The Belleville Party Reached There on
Feb. 24th.

Mr. E. Charles Clarke received a letter
to-day from his brother, Mr. Jos. D.
Clarke, dated Skagway, Feb. 23th. The
Klondike party arrived there on the 24th
and left on the 25th over the White Pass
for Tagish Lake.

Mr. Clarke says they were surprised with
the appearance of Skagway, which had
been described to them as a very rough
place. They found the town neat and or-
derly both day and night.
Another surprise to them was the cheap-
ness of transportation. They arranged to
get their freight hauled eight miles at 80
per ton.

The weather was mild and the roads in
good condition when they set out for the
lake. They had been joined by another
party of 25 men, which would make their
transportation easier.
It will likely be two months before
further letters are received from the party,
who are now on their long tramp.

His Official Visit.
District Deputy Grand Master Hargrave,
of Cobourg, visited Eureka Lodge No 283,
A.F. & A.M. last evening. There was a large
attendance of the "brotherhood" of the local
lodges and also visiting members from the
surrounding lodges. After the working of
two degrees the company adjourned to the
banquet hall, where refreshments were
served and a pleasant time was spent in
speeches, songs, and selections by the band.

Child Savings.
Rev. C. W. Watch, Superintendent of
the Canadian Child Saving station, has
received during the year 43 neglected
and homeless children, 37 of whom have
found homes. There is a deficit of about
\$260 on the two year's work, which the
public are generally asked to help wipe
out.

Anxiety at Washington.
A despatch from Washington to-day
says the utmost anxiety prevails at the
Navy Department. Secretary Long is in
constant consultation with the Chief of the
Bureau of Equipment, Ordnance and Con-
structions.

No Apology Necessary.
Why should the G.T.R. and C.P.R. offi-
cials publish long apologies for their action
in meeting rates? If the railway people can
stand it the public can, and will do its best
to be cheerful. There is no kick coming
from the people.—Hamilton Herald.

STANDING ROOM ONLY.

"Lame on Both His Feet"—Many
Seekers.

"Unless one wishes to stand, he has got
to be at Bridge St. church each night now
before eight o'clock, for after that hour it
is "standing room only," or, what is worse,
a "draw seat." Evangelist Ranton gains
in public opinion night after night: his
sermons are masterpieces of rhetoric; his
illustrations are homely and apt; he has a
new way of putting old truths; and his
freedom from all cant and "pulpit starch"
takes with all classes. His subject last
night had the peculiar title of "Lame on
both his feet," the incident in the life of
King David which is told in 2nd
Samuel, 9th chapter, being the basis
for one of the most practical and
earnest addresses yet given. Some of the
analogies were: We had all, like Mophi-
bush, fallen from our high estate; sin
had left us lame on both feet; the great
King of Heaven loved us still; we had to
come back and sit at His table; because of
the love of His son for us, He wanted to
save us all.

The clergy present were the Rev. W. J.
Young, Rector, Dr. Oude, G. E. Mc-
Intyre, Newton Hill, V. H. Cowart, J. J.
Rice, Prof. Doxsee and A. W. Coone.
The after meeting was waited for by
fully a large congregation, and resulted
in many decisions to be Christians.

The subject for to-night is "Point
Blank Questions."

Ladies, Attention.
At the end of the season you can get
your Blouse Waists at a reduction, but you
never have a chance to do so at the com-
mencement. We give you the chance now.
To-day we open out twelve dozen of nice
new blouse waists, which we will offer at
very low prices. They are this season's
samples, not an old style amongst them.
See for yourselves. If not the correct
thing don't buy.

A Surprise Party.

A very enjoyable evening was spent at
the residence of Mr. H. Ross on March 8th,
when a large number of their friends as-
sembled to celebrate his birthday. The
programme for the evening was well re-
ceived, with Mr. Willie Garrett as organist.
After which the guests sat down to a
stapendous repast and all did ample
justice to the beautiful cakes that were
provided. Much credit is due to the ladies.
The principal feature of the evening was
a few choice selections by Messrs. Smith
and Turner.

Injured at Crookston.

A man named John Ferguson, employed
at the Crookston quarry, was struck by a
piece of machinery to-day and his jaw was
broken and other injuries inflicted. He
was brought in on the Madoc train at 4:30
this afternoon and taken to the hospital in
the ambulance. His injuries are so serious
that his recovery is doubtful.

THE BLESSING OF THE AGE.

HAMILTON, Aug. 10, 1896.

Mr. S. S. Ryckman,
Hamilton, Ont.

DEAR SIR,—I take great pleasure in giving
you a statement regarding my case of
Rheumatism with which I was afflicted for
over thirty years. The pain had gradually
increased and afflicted me so much that
I could not sleep on my left side. When
I was troubled I had a kind of Dys-
pepsia, known as Gastric Indigestion, from
which I suffered considerably. I had to be
very guarded as to what I ate, otherwise I
paid the penalty. At present, since taking
your valuable remedy, known as "Kootenay
Cure," I am able to eat my meals with-
out any bad effect and sleep all night with-
out any pain or bad feeling.

In addition let me add that my Rheuma-
tism was so bad at times that I could not
move myself. I am now like a different
man and conscientiously recommend your
medicine, "Kootenay Cure," to anyone
suffering from Rheumatism or Stomach
Trouble. I am glad to have found the
remedy and will gladly furnish you with this
information that it may help others who
are similarly afflicted.

Wishing you success, I remain,
Yours truly,
(Signed) GEORGE BRADY,
Pastor, of the Evangelical Association.

The Coming of Spring

Is the signal for nature's reawakening. Business, too, starts into fresh life, as the New Goods,
New Styles, New Fashions that are to prevail for the season make their appearance.
During the past fortnight we have daily been opening large importations of the season's
newest fabrics, and invite all to come in and inspect the new goods. Our spring stock
is not yet complete, as we will be constantly adding new things in all departments.
Come in from time to time and you will always find something fresh to interest you.

OUR
NEW
BLOUSES

Are being greatly admired and the
early buyers are having pick from the
full assortment. You will do well to
make your selection soon to ensure
best choice. Sizes will sometimes get
sold out quickly and we cannot always
repeat the best lines.

Ladies, Attention.
At the end of the season you can get
your Blouse Waists at a reduction, but you
never have a chance to do so at the com-
mencement. We give you the chance now.
To-day we open out twelve dozen of nice
new blouse waists, which we will offer at
very low prices. They are this season's
samples, not an old style amongst them.
See for yourselves. If not the correct
thing don't buy.

A Surprise Party.

A very enjoyable evening was spent at
the residence of Mr. H. Ross on March 8th,
when a large number of their friends as-
sembled to celebrate his birthday. The
programme for the evening was well re-
ceived, with Mr. Willie Garrett as organist.
After which the guests sat down to a
stapendous repast and all did ample
justice to the beautiful cakes that were
provided. Much credit is due to the ladies.
The principal feature of the evening was
a few choice selections by Messrs. Smith
and Turner.

Injured at Crookston.

A man named John Ferguson, employed
at the Crookston quarry, was struck by a
piece of machinery to-day and his jaw was
broken and other injuries inflicted. He
was brought in on the Madoc train at 4:30
this afternoon and taken to the hospital in
the ambulance. His injuries are so serious
that his recovery is doubtful.

Robillard's Retirement.

The retirement of Mr. Honore Robillard,
the Conservative candidate for the Legis-
lature in Russell, was caused by ill health,
from which he has suffered for a long

YUKON TRAMWAY DEAL.

The Job Voted Through the
Commons.

Three Liberals and a Patron Vote
Against It—Two Conservatives
Support the Government.

(Special to the INTELLIGENCER.)
OTTAWA, March 11.—At 4:50 this morning
the House divided on Mr. Borden's
amendment to the Government's Yukon
Railway Bill, which was that the terms of
the contract with Mann and Mackenzie
were indefensible, and that the Conserva-
tives would support the Government in
giving substantial assistance to a rail-
way which would not entail a mining
monopoly.

The amendment was negatived—yeas, 65;
nays, 119.

The Liberals voted solidly against the
amendment, together with 5 Conservatives,
namely, Hughes, Cottingham, Hale, Blan-
chard, and Bethune.

Then the Government's Bill was carried
by a majority of only 39, 20 Conserva-
tives, Hughes and Bethune—voting with
the Government, and three Liberals and a
Patron against it, namely, Oliver, (N. W. T.),
McLennan (B. C.), Casey (West Elgin),
and Rogers (Frontenac).

Ladies, Attention.

At the end of the season you can get
your House Waists at a reduction, but you
never have a chance to do so at the com-
mencement. We give you the chance now.
To-day we open out twelve dozen of nice
new waists, which we will offer at
wholesale cost. They are this season's
samples, not an old style amongst them.
See for yourselves. If not the correct
thing don't buy.

RUSSELL NOMINATION.

Conservatives Place a Good Candidate
in the Field.

(Special to the INTELLIGENCER.)
RUSSELL, Ont., March 11.—Russell
County nominations were held here to-day.
A large crowd was present, notwithstanding
the bad roads. The nominations were:
Onesime Gibeau, Clarence Creek,
in the Liberal interest, and Pierre Marier,
of Jeneville, in the Conservative interest.

Among the speakers who addressed the
meeting after the nominations were Hon.
G. W. Ross, Mr. Stratton, M.P.P., Hon.
Mr. Evans and Col. Matheson, M.P.P.

Worth Ten Dollars a Bottle.

Any person who has used Nervine,
the great pain cure, would not be without it.
It cost ten dollars a bottle. A good thing is
worth its weight in gold, and Nervine is
the best remedy for all kinds of pain. It
cures neuralgia in five minutes; toothache
in ten minutes; lame back at one appli-
cation; headache in a few minutes; and all
pains just as rapidly.

Fatally Injured.

John Ferguson, who was injured at
Crookston yesterday by the breaking of
some of the hoisting machinery, was
brought to the city last evening on the
Maddox train, and taken to the hospital in
the ambulance. His injuries consist of a
fracture of the skull and a fracture of the
jaw. He was unconscious when brought in
and still remains so. He is not expected to
live.

Mr. Ranton's Meeting.

Rev. Mr. Ranton took for his subject at
Bridge St. church last evening "the point
blank question." The question was what
you would say to the Judge and the Hon.
How will you answer for your actions in this life?
The church was again crowded and the
deepest feeling prevailed the large gathering.
In announcing his subject for this
evening he said if one of the city news-
papers would publish to-morrow a verbatim
report of his sermon he would take
500 copies. His subject this evening will
be "Card Playing from the Parlor to the
Gambling Hell."

Reception to Mr. Dempsey.

The Conservatives of Amherstburgh hon-
ored W. R. Dempsey, M.P.P., a reception
at Redwood's last evening. Mr.
Willoughby Anderson was the moving
spirit in getting up the meeting. The
attendance was good, but would have been
better but for the unfavorable state of the
roads. A number of the prominent men
of the township spoke, congratulating Mr.
Dempsey on the victory he won on March
1st. Mr. Dempsey spoke 20 minutes, thank-
ing his friends for the hearty support they
had given him and promising to do his
best for the county while in the Legis-
lature.

Mr. L. B. Cooper Loses a Valuable
Horse in the Bay.

A few minutes after six o'clock last evening
a black team owned by Mr. L. B. Cooper,
miller, became frightened near the
upper bridge and bolted down Front St.
with an empty wagon behind them.
Fortunately the street was clear of rigs
and the animals were given a clear street.
At Bridge St. Officer Hayes grabbed at the
flying horses, but missed them.

At the City Hall Walter Fanning tried
to stop their mad career, but only succeeded
in turning them to one side, causing the
waggon to strike the electric light pole.
The south-west corner of the market
square, against which it was smashed. The
horses tore loose from the vehicle and ran
on down South Front St. to Rathbun's
wharf, off which they jumped on the ice.
There they became parted and ran on
towards Rosamers.

Near the swing in the bridge is an open
space and into this the first horse plunged
and sank, and never rose. The other
animal followed, but after sinking came to
the surface and swam about. Several men
rushed to its rescue, but it was about half
an hour before it was pulled out more than
100 feet alive.

The horses drowned was the more val-
uable of the two and the one saved is
almost ruined. They were a well matched
team, one of which Mr. Cooper had only
had a short time.

Special Sale of Men's Suits.

A NEW CHINESE DYNASTY.

A Slice of China May Be Claimed by Revolving Celestials.

The Manchus May Have to Give Way as a Ruling Dynasty, or Cede Heavy Levies Upon the Provinces. The House Seems to Be Divided Against Itself and Outside Protection Is Looked For.

London, March 12.—The Daily Chronicle attaches importance to the following dispatch from its correspondent at Hong Kong: "The Manchus are hopeless as a governing dynasty and the imperial court is likely to migrate to Shan-Si Province. The increasing imperial demands upon the provincial governments cannot continue, and it is possible the result will be a new Chinese dynasty, in central China with capital at Nankin. If British protection is refused to the arrangement others powers are willing to accord theirs."

The Creation of Port Arthur. Peking, March 12.—The British Minister, Sir Claude MacDonald, visited the Chinese Foreign Office on Tuesday and lodged a strong protest against the cession of Port Arthur to Russia, saying it would destroy the balance of power in China. The Chinese officials, however, declared their inability to withstand the Russian demands.

M. Pavloff, the Russian Charge d'Affaires, wished the cession to take place within five days, in order to forestall the arrival of his successor, but China required a longer time to consider the matter, and there the negotiations were transferred to St. Petersburg. Russia is still exerting pressure to bring about the denouement of the British engineers. The Tsung-Li-Yamen referred the matter to the director of railways, who declared their services were indispensable, regardless of their nationality.

AUSTRALASIA WILL PUT UP.

Will Give One-Third for Cable if Canada and Britain Will Give the Other.

Melbourne, March 12.—At the conference of the Colonial Premier yesterday it was resolved that, if Great Britain and Canada contribute two-thirds of the cost of the proposed Pacific cable, Australia should contribute the remainder. It was resolved also that the proposed federal tariff should give preference to British products, and, in default of an early federal tariff, that the individual colonies should be recommended to give a substantial preference.

THE BOMBAY RIOTS.

A Summing Up of the Difference Between the Authorities and the Rioters.

Bombay, March 12.—The total casualties resulting from the plague riots are two soldiers of the Shropshire regiment killed, a municipal inspector who accidentally shot himself, four Europeans and four native policemen with 17 civilians injured; nine rioters killed and 22 injured. One hundred and nine arrests were made. The Hindus and Mahomedans began closing their shops yesterday as a protest against the plague measures, and the movement is spreading. About 15,000 dockers, railway laborers and others have struck work. The city is guarded by infantry, cavalry, marines and armed police.

FOR CANADA'S GOVERNOR.

Lord George Hamilton May Succeed the Earl of Aberdeen.

London, March 12.—The St. James' Gazette yesterday afternoon says it understands that Lord George Hamilton, now Secretary of State for India, will succeed the Earl of Aberdeen, as Governor-General of Canada.

COLLIERY DISASTER AT AYRSHIRE.

Nineteen Persons Still in the Murkirk Mines.

Edinburgh, March 12.—A colliery at Murkirk, Ayrshire, was flooded yesterday. Nineteen persons failed to reach the bank, and are still in the mine.

WHAT IS BEHIND THIS?

Count Esterhazy Withdraws His Libel Suit With Official Acknowledgment.

Paris, March 12.—Count Esterhazy, acting on the advice of his counsel, has abandoned the libel action against Mathieu Dreyfus, for accusing him of being the author of the famous Bordereau. The fact that Esterhazy asked and received the authorization of Minister of War Billot and General Pelloux to bring the action adds to the significance of its withdrawal.

May Be Cleared Up Startlingly.

London, March 12.—The Chronicle, referring to the withdrawal of the action brought against Mathieu Dreyfus by Count Esterhazy, says that there is a mysterious aspect to the matter, which in a few days will be cleared up in a rather startling fashion.

A Siege Raised.

Iloilo, Iloilo, Iloilo, Philippines, March 12.—The Spanish garrison, which had been under siege by the insurgents, was relieved yesterday by a vessel with reinforcements, after bravely resisting hundreds of rebels.

Indian Wheat Price Up.

London, March 12.—The Calcutta correspondent of the Times says: "Experts estimate that a million tons of wheat will be exported from Cawnpore. Wheat for April delivery is selling at 3 rupees 6 annas per eighty pounds, against an average rate in past years of 3 rupees 5 annas. No such price was ever touched before and the cultivators will benefit greatly."

Drummond's R. Deal.

Ottawa, March 12.—The Senate has decided not to proceed with the enquiry into the Drummond County Railway matter until the special committee of the House of Commons has made its report. Sir Mackenzie Bowell's motion this morning over Bill McGowan, March 11. In the Senate yesterday Mr. Miller stated that the placibito bill would be introduced within a fortnight.

REMARKABLE RUMOR.

A Deposit Double That of McKenna-Mann May Be Offered—\$200,000.

Montreal, March 12.—Two very important rumors reached here yesterday from the Canadian Senate chamber. It is said, in the first place, that the Conservative Senators have a big surprise in store for the Government when the Yukon bill comes before the House. It is said that an offer will be tabled by Mr. Hamilton Smith to put up a deposit of \$200,000, and asking for a vote to build the railway from Teelin Lake to Alice Arm.

The second rumor is one of the gravest importance, and if the movement is on, as stated here last night, it will no doubt be resented by the Conservative members in the Senate, irrespective of party name. It is stated that an attempt will be made to bring the Canadian Senate into possession of the contract, and that a fund of at least \$500,000 is available for this purpose.

THE RECOUNTS.

West Huron Changes Over Martin's Majority Increased. Powell Is Gaining.

Goderich, March 12.—In the recount for West Huron, held yesterday before Judge Martin, at 2 o'clock, Mr. Beck, Conservative, was 2 ahead with 12 1/2 divisions yet to count. The tally was from Goderich town and Goderich and Haldimand townships. Four ballots are reserved for argument. It was expected to finish the recount last night, but their argument today.

Martin's Majority Increased. Toronto, March 12.—The North Toronto recount was held by Judge McLaughlin yesterday, and resulted in adding 10 to Mr. Martin's former majority of 34. The totals were found to be: Martin 3,615, Dewar 1,479.

Powell Is Gaining. Ottawa, March 12.—The recount in Ottawa commenced yesterday before Judge McTavish. Two wards, Victoria and Dalhousie, were disposed of with a net gain of 6 to Mr. Powell, Conservative member. Mr. Powell's majority is now 8.

Misses in Peril.

Stratford, March 12.—The recount of the ballots in the South Perth election is still proceeding. As the press and general public are excluded, it is in our duty to get information about it. However, it is understood some ballots were laid aside for argument, in which, by a printer's error, the names of Frame, the Independent candidate, and Montolth, the Conservative, appeared in the same space, and while the voters placed the cross as near Montolth's name as was possible under the circumstances, the deputy returning officer credited Frame with the votes.

No Recount in Nipissing.

North Bay, March 12.—The official declaration as to the result of the election in Nipissing was made yesterday, and, according to the Liberal Chronicle, was declared elected by 61. A mistake was made by the deputy returning officers in one poll in Sturgeon Falls and at the poll in the Township of Cameron in not filling up the proper form in the poll books, and then two polls were thrown out. Both deputy returning officers signed the forms, but neglected to fill in the spaces, showing the number of votes cast for each candidate, or the total number of votes polled, so the returning officers refused to allow either. The Sturgeon Falls poll, according to the official figures, gave Loughrie a majority of 7 and the Cameron poll 30 for Lamarche. If, therefore, both these polls had been allowed, the official majority would have been 25. The result is very disappointing to the Conservatives, as they were making all preparation for a recount, and their good hopes of succeeding, but, as the law only allows recounts to be applied for when the majority is under 50, they are deterred by the declaration made today.

The Lennox Recount. Napier, March 12.—The recount for Lennox was concluded yesterday. Mr. Aylsworth's majority was increased from 32 to 43.

Russell a Storm Centre.

Ottawa, March 12.—Despite the very hot condition of the roads, a large crowd attended the nomination proceedings at Russell yesterday. The following nominations were made:

For the Ward of Clarence Creek, merchant, moved by Russell Craig, seconded by A. Lalonde.

Pierre Marier of Janelville, manufacturer, moved by William Morris, seconded by A. Duguet.

Robert Cummings of Cunningham Bridge, merchant, moved by Louis G. Fournier, seconded by William Bradley.

Immediately after the nominations were closed Mr. Cummings retired. He was put in the field because the Conservatives feared that at the last minute the Liberals might place either Hon. J. M. Gibson or Hon. John Dryden in the field. In that event Mr. Marier would have retired, and then Mr. Cummings would have contested the seat in the interests of the Conservatives.

It is health is a luxury that only the rich can afford, and that no one can enjoy. Every woman is not so situated that she can be an interesting invalid, or rather, an uninteresting invalid, for there never was an interesting one.

The woman who suffers from weakness and disease of the distinctly feminine organs is certain to become an invalid. No woman can suffer in this way and be a healthy, happy, amiable wife and a competent mother. Troubles of the nature expel the strength, rack the nerves, pall lines of suffering upon the face, destroy temper, make the once bright eyes dull and the once active brain sluggish, and transform a vivacious woman into a weak, sickly invalid.

One sure, speedy, permanent cure for all disorders of the distinctly feminine organs is certain to become an invalid. It acts directly on the delicate and important organs concerned, and makes them strong, healthy, vigorous and elastic. It cures the internal ulceration and inflammation that give rise to a debilitating drain on the system. It is the best medicine for constipation, "menstrual" troubles.

"About six years ago my wife became afflicted with female weakness," writes the Rev. J. J. Murphy of Hilo, Kauai, Co., Terr. "She could not stand on her feet or get in position to which she did not suffer great pain. She was debilitated of every organ being well. She took six bottles of Dr. Pierce's Female Restorer and has been well and happy for twelve months."

It is a druggist's business to give you, not to tell you, what you want. Thirty-one one-cent stamps cover the cost and return of a paper covered copy of Dr. Pierce's Common Sense Medical Adviser. Check-house stamps, sent to Dr. J. C. Pierce, Buffalo, N. Y.

"On the Square."

BEN FRANKLIN SAYS: "In the affairs of this world men are saved, not by faith, but by the want of it." If you, last season, allowed a combination of nickel, paint and big discount to warp your better judgment, and have thus become skeptical saying, in your haste, "there is no such thing as honest value in bicycles," we want you. You are just in proper condition to appreciate the CLEVELAND, a bicycle "built on the square."

THE SCHEME CHECKED.

The Council Refuses Assistance Towards Improving the Fair Grounds.

A few weeks ago the West Hastings Agricultural Society had before the City Council a scheme for improving the fair grounds. They guaranteed to build a first class half mile track, to lay out athletic grounds in the centre, improve the grounds and buildings and make them a public park. The Society asked the Council to guarantee them an annual grant to assist them. Not long since the matter came before the Executive Committee of the Council and after considering the request of the Agricultural Society, they replied that they could not bind future Councils to grant, but for the Society to go on with the work and they might see their way clear to assist them.

Ed. Toulon, President of the Society, said this morning that the work would be done until the City showed its practical sympathy with the undertaking. It would involve a large outlay of money and the city would get the benefit. The Society were assured \$4,000 in subscriptions, but for the Society to go on with the work and they might see their way clear to assist them.

If you are not feeling well, why don't you take Hood's Sarsaparilla? It will purify and enrich your blood and do you wonder.

WOULD BE MURDERER.

A Resident of Warkworth, Ont., Attempts to Murder His Wife.

Escaped Through a Window—Tim McMann's Desperate Deed—When his Wife Escaped he Made an Effort to End his Own Life.

Warkworth, March 13. Yesterday morning Tim McMann, a resident of this village, attempted to murder his wife, but she escaped from him through a window to a neighbor's house. He followed with a large knife in his hand. Not succeeding in catching her he returned home, and tried to kill himself by cutting his throat. When Mrs. McMann returned to the house she found him lying in a pool of blood. Immediately a doctor was called in. He put several stitches in the wound, and thinks McMann will recover.

This is the second time Tim has tried to end his life. Last summer he was sent to Cobourg jail for taking strychnine, but was released on promising not to do it again.

Spring Overcoats.

Be careful about deciding where and how to get your spring overcoat. You want good cloth, good trimmings and a good fit. The tailor may possibly give you all this, but without asking for tenders, but it would itself to give the same contractor the privilege of building any further extension that might be necessary to make the route what it is pretended to be, one which Canadians could use free from interference of United States Customs officers. So completely also is the Government line up to this extraordinary agreement that it refuses to consider offers made by other responsible parties, and its members make speeches and counsel documents for the purpose of throwing discredit on men who trust such offers upon it. There has never been such a spectacle presented in Canada. The Government has admitted that threatened legislation by the United States Congress will compel an extension of the proposed railway to some point on the British Columbia coast. It will give the work, and the money subsidy, it also admits, without tender, to the contractors who obtained the original contract without tender.

It has been freely said that the Ottawa Government's railway deals were responsible for much of the Liberal luke-warmness shown to Hardy Government candidates in the recent Ontario elections. Whether in the east or in the west, the public interest in the last thing the Laurier Ministers appear to think of when an opportunity for a deal presents itself. They are now doing to themselves, but with far greater force, the harm they did for their "right arm" in Ontario.

The Contractors' Cabinet.

Montreal Gazette.

The complete manner in which the Laurier Government placed itself in the hands of the Yukon Railway was again illustrated in the utterances of the Ministers in Monday night's debate. The Government not only made a contract for a line from Glenora to Teslin Lake without asking for tenders, but it would itself to give the same contractor the privilege of building any further extension that might be necessary to make the route what it is pretended to be, one which Canadians could use free from interference of United States Customs officers. So completely also is the Government line up to this extraordinary agreement that it refuses to consider offers made by other responsible parties, and its members make speeches and counsel documents for the purpose of throwing discredit on men who trust such offers upon it. There has never been such a spectacle presented in Canada. The Government has admitted that threatened legislation by the United States Congress will compel an extension of the proposed railway to some point on the British Columbia coast. It will give the work, and the money subsidy, it also admits, without tender, to the contractors who obtained the original contract without tender.

At the Tabernacle.

The morning service at the Tabernacle yesterday was conducted by Rev. A. H. Ranton. Taking for his text Ex. 4:2, the text typifying the consecration of self and service to Almighty God, he said that during the late political campaign he had read in a Toronto paper that religion was religion, business was business and politics was politics. It was impossible to mix business and religion or politics and religion, but it was possible to mix religion and business and politics and religion. He had often heard it said "Is life worth living?" and he would answer thus. Life without Christ is not worth living, but life with Christ becomes an inspiration. The quickest way for promotion is by loyalty and faithfulness to our present position. He said God has very great work to be done here and he was not for any extraordinary agencies. In the evening Rev. Mr. Martin, of Toronto, preached a most powerful sermon from Num. 14, 33, descriptive of the flight from Egypt. Mr. Martin's many friends will be pleased to learn that he contemplates residing in Belleville in the near future. His coming will be an added charm to the church's most efficient service.

Prosecute Them.

The Bancroft Times says: Almost every day reports reach us of the illegal killing of deer, and on Saturday last an individual, mounted on horseback, shot one on a crest within a couple of miles of the village. The man who would kill a deer at this season of year, and who is so easily detected by a spirit of pure conscience, as the most is unfit for use, and this is the only benefit that he could possibly derive from it. Now is the time that our game laws should be more strictly enforced. We have game wardens, but they do not appear to understand what their duties are. If this sort of thing is allowed to continue the common red deer will soon become as extinct as the dodo.

Trent Valley Canal.

Ottawa, March 13.—Mayor Miller, of Ottawa, accompanied by Messrs. Bennett, McLaughlin, Hughes, Leung, Trefaut and Craig, waited on the Government yesterday in connection with the construction of the Trent Valley Canal. Mr. Miller had memorials with him from the municipalities, etc., along the route. The delegation met Sir Wilfrid Laurier, Hon. A. G. Blair, Hon. W. L. Munn, and Sir Louis Davies, and received the usual answer.

A BIG WIND STORM.

It and the Rain Played Havoc With the Ice.

The wind storm that sprang up from the southwest on Saturday night, together with the rain that fell Saturday and yesterday, practically destroyed the ice in the bay. From the bay bridge east as far as a person can see there is a wide channel of open water, and the action of the wind and waves is fast breaking up the remaining ice. The ice in the mouth of the river is fast going, and all danger of the usual spring flood is now over.

The wind played havoc in the city and surrounding country yesterday. In the city a number of chimneys were blown down, fences prostrated, shutters wrenched from their fastenings and other damage done. In the country the wind had fun with the rail fences, levelling them as though they had been built of straw.

The need of a good Spring Medicine is almost universal, and Hood's Sarsaparilla exactly meets this need. Be sure to get Hood's.

Ranton's Busy Day.

Rev. Mr. Ranton preached yesterday morning in the Tabernacle to a large congregation and addressed the Sunday School of Bridge St. Church in the afternoon. In the evening the 1000th anniversary of the birth of Christ was celebrated at the Tabernacle. Mr. Ranton took as his subject "Jesus a Saviour," and spoke from the words in the 25th verse of the 15th chapter of the Acts of the Apostles.

A CANADIAN POLICY.

LET US FIGHT THE YANKEE RE-
STRICTIONISTS WITH THEIR
OWN WEAPONS.In 1874 the late Hon. Robert Read, in a
speech delivered by him in the Senate,
struck the key-note of the campaign of
1878. Discussing the trade relations of
Canada with the United States, Mr. Read,
who was one of the most clear-headed men
of business in Canada, threw a bomb
shell into the political arena in his his-
toric words,"RECIPROcity OF TRADE OR RE-
PROcity OF TARIFF?"Sir John A. Macdonald, whose apprecia-
tion of public sentiment was marvellously
quick and clear, made this patriotic decla-
ration the battle cry of his political campaign
during the next three years, and the result
was the glorious triumph of September
17th, 1878, when the Grit party was over-
whelmed by a volcanic upheaval of public
opinion against their policy of surrender to
the Yankees.During their long tenure of office the
Conservative party went far, it is true, to-
wards carrying out the policy as tersely
outlined by Mr. Read, but they fell short
of the goal which he desired them to reach.
They sought to secure satisfactory trade
relations by conciliatory measures, but the
result did not realize their expectations.
Our neighbors, encouraged by the forbear-
ance of our rulers, in the face of legislation
hostile to our interests, restrictive of our
trade and annoying to our people, have at
last gone so far, namely in the
impediments which they have placed in
our way in connection with the navigation
of the St. Lawrence, as to render it im-
perative for Canada to return, not only
that blow, but every other blow which the
United States has struck at us.This can best be done by legislation to
provide for—An export duty on Nickel in ore or
matte, Pulp Wood and Coal-bearing Rock.
An alien law, as to Labor and Mining,
couched in precisely the same terms as that
of the United States.An import duty on Lumber, Locomotives,
Bicycles, Guns and Rifles, Agricultural
Implements, Vehicles of various kinds,
and other articles chiefly imported from
the United States, in competition with
our home manufactures.Reimposition of the duty on Indian
Corn and increase of the duties on Agricul-
tural Products, if deemed necessary to pro-
tect the interests of our farmers.This would be, under the circumstances,
a truly NATIONAL Policy.And to the Conservative party alone can
the people look for its adoption.

SPRING FRESHETS SUBSIDING

Ottawa Has Had a Little Experi-
ence of Unpleasantness.Several Hundred People Practically
Homeless Along the Rideau and
Rideau Falls and Galt had an Anxious
Time, but Now the Waters Are Reced-
ing. Hereafter, Also, Had a Taste of
Spring—An Exaggerated Report.Ottawa, March 15.—The rapid thaw of
last week, accompanied by heavy rain,
has caused a great rise in that part of
the Rideau River which flows through
and near the city, and the result that
the low-lying lands on the east bank of
the river are submerged and thousands
of acres are under water. The villages of
Jansville, Chalkville, and the southern
end of New Edinburgh, all of which are
highly fertile, and several hundred
people are practically homeless to-night,
their houses being surrounded by water
as to be only reachable in boats,
and many of them are so unsafe as to
be uninhabitable.The flood is the worst in forty years,
and the damage to property is very great.
To the east of the railway bridge
was washed away and the water immedi-
ately commenced to flow freely in
Ottawa and it is still falling almost as
rapidly as it rose.The Flood at Brantford.
Brantford, March 15.—The water in
the Grand River continued to rise until
an early hour yesterday morning, when
it appeared to have reached its highest,
at which it remained for some time. In
West Brantford the water continued to
rush through the streets at great speed.
The streets are badly cut up with wash-
out holes, and sidewalks are floating in
places. Communication is made with
boats.The G.T.R. suffered considerably, their
tracks being washed a few feet out of
place and considerable of the earth
washed away. They had a gravel train
and oak at work repairing.

Abated at Galt.

Galt, Ont., March 15.—The Grand
River flood has abated and the quantity
of water in the cellars of numerous
stores and private dwellings is gradually
becoming less. Every store on Main
street has water in the cellar, owing to
the water being forced back through the
sewers. Cherry Street, however, is
higher, and containing two hundred
feet of water, was swept away last
night, carrying with it another span
of the upper bridge. The loss to Cherry
Brothers will amount to about \$10,000.
The other smaller stores and houses
aggregate about \$8,000, making a total
of \$18,000, besides the loss to the municipa-
lity, which will be in the neighborhood
of \$7,000. The Galt, Preston &
Hosper Street Railway is unable to
run between Preston and Hosper,
owing to the washed-out track on that
section of the road. The Grand Trunk
Railway has ten men at work on their
line between Galt and Don, repairing
the roadbed and replacing rails. It will
be several days before traffic can be
resumed on that branch of the road.

Much Trouble at Hespeler.

Hespeler, Ont., March 15.—Not far
from the water of the Grand River
been as high as they have been to-day.
The river is swollen to many times its
normal level, and many of the low-lying
lands between here and Preston are
under water. Several depots in the
Brook Woolen Mills, Hespeler, Spec-
tator, Woolen Mills and the
Pettinson Woolen Mills at Preston have
been closed to-day on account of the
flood. The electric railway between
Preston and Hespeler is inundated
in several places and a number of
conductors and passengers are stranded.
There was no car up yesterday. Preston
was in darkness last night, as all the
electric light wires between there and
Blair, where the power station is
situated, are down. The river is slowly
receding, and it is expected that the
water is over.

London West is Safe.

London, Ont., March 15.—All danger
from flood in West London is past. After
midnight last night the water began to
fall, and last night it was well within
its banks.The reports sent to the Toronto papers,
stating that 1,500 people were made
homeless, were pure exaggeration.

LORD SALISBURY MUST REST.

Mr. A. J. Balfour Taking Charge of For-
eign Office Business.London, March 15.—It is officially
announced that the Marquis of Salisbury
was greatly fatigued by Friday's Cabinet
Council, and a return of weakness,
following the attack of influenza, expe-
rienced with the result that Sir William
Broadbent, the famous physician, advised
the Premier to take a complete rest in
the South of France. Mr. J. B. Hall,
the First Lord of the Treasury, and Gov-
ernment leader in the House of Com-
mons, so far as necessary, is now dealing
with the Foreign Office business. The
Press Association says it is authorized to
declare that the rumor that the Marquis
of Salisbury contemplated resigning
either of his offices is absolutely ground-
less.The Marquis starts for Bouillon in
about a week's time and will stay there
about a fortnight.

Walked 65 Miles to Court.

Toronto, March 15.—Charles Robinson
of Kingston, Ontario, yesterday received a
summons to appear at court here as a
witness in the case of the Queen v. Cook.
He has no money, and believing the
summons to be a forgery, set out to
walk to the city. The distance from
Kingston to Toronto is 65 miles, but Mr.
Robinson was on hand for the opening of
court at 10 o'clock yesterday morning.

Another Rebellion in India.

London, March 15.—According to a
despatch to the Times from Singapore, a
rebellion has broken out at Battambang,
where the people have refused to pay
taxes.

Guilty of Rape.

Cobourg, March 15.—The spring jury
opened before Mr. Justice Falcousbridge
at noon yesterday. J. Quon
Henry Phillips of Carletonville, prisoner
pleaded guilty to a charge of rape.

The Murderer Fugitive.

Toronto, March 15.—The Government
has decided not to retort the House of
pigeons until every victim of the disease
in the locality has disappeared.
Dr. Dwyer of the Provincial Board of
Health said yesterday that the epidemic
would pass a bylaw providing for
the inspection of the animals as they
were sent to market, the disease would
soon be wiped out.

The Lakeside is in Trip.

Port Dalhousie, Ont., March 15.—The
steamer Lakeside came down the canal
from St. Catharines yesterday afternoon,
and took a full trip out to the lake on
a large party on board. She starts to-
morrow on her regular trip this morning
between here and Toronto.

Don't Want a New City Hall.

Stratford, March 15.—The bylaw to
authorize the purchase of a new City Hall
for \$40,000, for the purpose of erect-
ing a new City Hall to replace the one
burned last November, was defeated
yesterday by a majority of 74-61 voting
for and 69 against it.BRITISH WARSHIP BUILT FOR
UNITED STATESMr. G. N. Curzon Gave Him
Some Information.The United States Has Bought Two
Cruisers They Are of English Build,
and, of Course, Are First Class. The
Government of Brazil Had Offered to
the Americans and Uncle Sam's
Money Secured Them.London, March 15.—Mr. Michael
Davitt, anti-Parnell member for South
Mayo, questioned the Government in the
House of Commons last night as to
whether Great Britain had offered to loan
money to the United States in the event
of a conflict with the United States
and a European war.He also put a series of questions with
a view of eliciting whether there
have been any negotiations for an alliance
between England and the United States,
and whether England had offered to assist
in the Cuban affair.

British Made an Offer.

London, March 15.—In the House of
Commons yesterday, Mr. Michael
Davitt, anti-Parnell member for South
Mayo, asked the Government, Mr.
George N. Curzon, replying to Mr.
Michael Davitt, anti-Parnell member for
South Mayo, as to whether Great
Britain had offered to loan money to the
United States in the event of a conflict
with the United States and a European
war.The subject of Mr. Davitt's question was
whether there have been any negotiations
for an alliance between Great Britain
and the United States, and whether
England had offered to assist in the
Cuban affair.Mr. Curzon's reply that Mr. Davitt's
questions were inappropriate was
received with a loud "Hoor, hoor, from the
left benches.

Two Cruisers Bought.

United States Has Secured Two Fine War
Ships Which Had Been Built for
the Brazilian Government.Washington, March 15.—A week's
negotiations closed yesterday by the
purchase by the United States of two
cruisers from the Brazilian Government.
The two fine cruisers built and
building at Blackwell for the Brazilian
Government. Possibly the officials took
more pleasure in closing up the business
in this manner because of the knowl-
edge that the Spanish agents had been
trying to secure these very ships, to
whom it is said they would be of much
greater value in case of trouble than to
the United States. The news of the
purchase of the two cruisers was
received with much interest here, and
has not yet been settled, according to the
Secretary of the Navy. The United States
flag will be hoisted over the new ships
within a week, probably, and just as
soon as the crew can be put aboard the
Amazon she will start on her voyage to
the United States. The other vessel will
follow at the earliest possible moment. The
terms of sale are not yet settled. The
two Brazilian ships were first brought to
the attention of the Navy Department by
Mr. Lane, agent of the Marquis of
Salisbury, who was authorized to
dispose of these ships, and two others in
course of construction in France. Mr.
Lane said yesterday that the American
purchase would be a most desirable
acquisition to the American Navy, as
the latest and best of the products
of the famous Armstrong yards.

One Ship Ready for Service.

One of the ships is complete in every
respect, has her coal supply and engine
on board, and is ready to sail at any
time. There will be no trouble in
bringing this ship to sea, as an adequate
force from the local yards will be ac-
cording to the service. It is said the coal
and ammunition on board passed with the
ships to the United States. The ammu-
nition is not of the kind in use by the
United States navy, so that the supply
of ammunition is a necessary accompani-
ment of the new ships. The other ship has
been launched, but it will take some time to
make her ready for sea. Mr. Lane
said yesterday that the American pur-
chase would be a most desirable
acquisition to the American Navy, as
the latest and best of the products
of the famous Armstrong yards.

A Dangerous Deficiency.

A dangerous deficiency in the engineer
branch of the navy has been brought
to light yesterday. The fact is, that
there is a serious shortage of engineers
in the navy. It is said that the navy
department is endeavoring to secure a
staff of engineers to fill the gap. It is

BANKING IN THE KLONDIKE.

Mr. H. T. Willis' Seven Clerks to Sleep in the Attic

Bank of Commerce Will Have a Two-Story Log Building in Dawson City and an Assay Office.

(Ottawa Citizen, March 12.)
Mr. H. T. Willis, of Orangeville, whose name will go down to posterity as the manager of the first bank to be established in the Klondike region, arrived in the city yesterday and registered at the Russell. Saturday he was seen by a Citizen reporter, to whom he unfolded his plans for work in the new Klondike.

As stated Mr. Willis is to have charge of the Bank of Commerce to be established shortly in the far north. At present he is stationed at Orangeville as Manager, where he has been for the past seven years. He has been in the service of the company for 10 years, having first entered the bank in 1879. Mr. Willis is a native of Belleville, Ont., and the son of Thomas Willis, County Treasurer. His brother, Dr. A. H. Willis, has also lived in the gold fields where he secured several valuable claims and is considered wealthy. Having come of the study stock the Quinte district is famous for producing Mr. Willis is an enthusiastic over the prospect, despite the personal discomfort and privations he is bound to experience.

"We will probably leave for Skagway about the 1st of April," he said, "and we are busy for business shortly after that. I will take with me a staff of seven young men who will be selected from about 200 applicants, already received from various sources, who are now in the employ of the bank throughout the country." They have a matter of fact been selected already, but I am not in a position as yet to give out their names.

"Will you be satisfied to remain in the Klondike region for more than a year, Mr. Willis?"
"Well, yes," was the reply, "a year would not be sufficient for me. I am going there to make something out of it, and you can rest assured I will."

Continuing, Mr. Willis said the bank had already forwarded what would be required, including provisions, and all would be in readiness when the party would arrive. An assay office would be established at once, and in addition to being a source of revenue to the bank would be a great convenience to the miners, who would not then be compelled to send their findings to the coast but would find just as good a market for disposing of their gold at their very doors. This would also give Canada the handling of almost all the gold taken out. The bank would consist of a two story log house built in the customary crude fashion of a mining camp.

The upper story will be utilized as the sleeping quarters of the bank clerks, who would necessarily have to be near at hand at all times for purposes of protection. The bank would be located on the ground of the bank carrier system would be established at once for conveying the gold to the coast. In fact, said Mr. Willis, "all arrangements have been made for the bank to be given long and earnest consideration and the conclusion to establish this branch was only arrived at after every possible point had been looked after. We carry on our supplies in the same manner as the miners, but I do not look upon the trip with any idea that it will be anything but pleasant. Why, with all the difficulties and the several lines across the Chilkoot Pass, I don't count on walking any more than six miles at the most. You can understand navigation will be opened up then and we will use canoes."

Mr. Willis is a sturdy, well built man, middle aged and has the appearance of one well able to go through a Klondike experience. He is now residing in the city for a few days on business.

Two Warnings.

Loosing fish is one and hacking cough is another. If they come together the warning is a loud and hard one. Scott's Emulsion does some of its best work in just these cases. It prevents consumption.

Men Who are Bald.

See Prof. Dorenwend, the well known hair goods artist, who will be at the Hotel on Tuesday, March 22. His system of replacing lost hair on bald heads is really marvellous. Any doubts as to this fact can be quickly settled by examining his goods. There is not the slightest trace of faleness, and besides improving one's appearance, they afford protection against cold, sunburn, dandruff, etc. The wearer never realizes that he has it on, it is so light and comfortable. Over 34,000 are in use and the number is increasing daily.

RYCKMAN'S KOOTENAY CURE

Was the Medicine That Gave Her Complexion the Glow of Health and Removed the Puffed Appearance From Her Face.

50 George Street
HAMILTON, ONT., Jan. 21st, 1895.

Mr. Ryckman,
Dear Sir,—I have been conversing this day with Mrs. E. Clarkson, 138 Hannah street east, this city, who claims to have received great benefit from "Kootenay Cure," which is sold so generally by you at the present time. Her special trouble was Bright's Disease and was of nine years standing. It was so pronounced by two physicians. While she does not claim to be completely cured, having taken only four bottles of remedy, yet she feels so much better that she does not hesitate to recommend its use to anyone afflicted as she has been. Her head has been entirely cleared, and almost from the neck. The complexion wears the glow of health, and the puffed appearance is gone from the face. She has increased in weight in two months, and is thoroughly encouraged to believe that what has improved her physical condition will ultimately accomplish a complete cure.

SAVED FROM DEATH!

A Wondrous Statement by a Montreal Man.

PAINE'S CELYERY COMPOUND Dragged Him From an Open Grave.

WHEN LIFE HAS ALMOST FLEED AND DOCTORS PAUL, THUNDERBOLTS SPRING MEDICINE GIVES A NEW EXISTENCE.

Paine's Celery Compound is a Wonder to All Our Physicians.

WELLS & RICHARDSON CO.,
Gentlemen:—Five years ago, while living in Hamilton, Ont., I met with a serious accident, a heavy weight having fallen on me, rendering me unconscious most of the time for seven days. I went to the Hamilton Hospital, where the superintendent took charge of my case and used every possible means to relieve my sufferings. Not getting better, I left the hospital and came to this city, and suffered continuously until last year, when I entered the hospital here and was treated in much the same way as in Hamilton. I was told that my terrible sufferings came from injuries to the head and spine. After spending three months in hospital here I left it, and could not do anything for me.

I afterwards went to the Nun's Hospital here, and for a time I lost the power of speech. Last Easter I had a very bad attack and was so crazy from pain and misery that I wished to die. I asked the sisters as a last request for a bottle of Paine's Celery Compound. I had heard so much of its curative virtues. They procured it for me and I commenced its use, and in three or four days I was able to get out of bed and do most of the usual work of the household. I continued its use until I was cured, and it finally banished all the troubles that had made life miserable and unendurable. I am now healthy and well; I can eat and sleep with perfect content, and feel like a new being. I have recommended Paine's Celery Compound to many people since, and it has proved a source of blessing to them all. It saved my life and saved me from death. Yours truly
S. F. AUBRY,
Seigneur St. Maurice.

ONE HUNDRED KILLED.

Terrible Earthquake on One of the Molucca Islands.

Tecoma, Wash., March 14.—Hong Kong agents received yesterday tell of a terrible disaster late in January on the island of Ambon. The town of that name was entirely destroyed by an earthquake, killing 100 persons and injuring 200 more. Ambon is one of the clove group of the Molucca Islands, east of Celebes.

Presentation at Avondale.

A large number of the residents of Avondale, Belleville's western suburb, gathered last evening at the residence of Mr. and Mrs. David Bush to bid them farewell on their departure for Ottawa, whether they will move in a few days. On behalf of the Avondale friends Miss Ida Zuehlert addressed the party, which expressed their regret at the departure of Mr. and Mrs. Bush from their midst and wished them prosperity and happiness in their new home. Accompanying the address were suitable gifts, which were presented by Miss Ethel Denyes and Miss Blanche Gibson. The company spent a very pleasant evening. Mr. and Mrs. Bush will be greatly missed in Avondale, where they have lived about twelve years.

BLESINGTON.

Sugar making is in order now.

Mr. and Mrs. A. E. Aylesworth are visiting Mr. Harry Ross.

Miss Bertha McKenzie, of Pictou, is visiting Miss Bertha Ross.

Miss Cassie Quigley, of North Dakota, spent a week with Mrs. H. F. Reid.

Miss Minnie Quigley, who has been visiting friends in Campbellford for some weeks, returned home on Saturday.

Rev. Mr. Anderson, of Plainfield, preached a missionary sermon in Scotch church on Sunday morning. Rev. Mr. McArthur, of Melrose, occupied the pulpit in the evening.

THOMASBURG.

Quite a large party left here on the 8th inst. for Manitowish, among whom were W. A. Norton, John H. Elliott, M. Adams and Wm. Kretsch.

Parnore is this spring finding a home market for their surplus stock of potatoes, onions, turnips, etc., at the evaporator, operated by E. Mayne about one mile west of the village, where large quantities of vegetables are being purchased. The dried article is sealed in tin cans and sent to the Pacific coast. This industry employs about twenty hands.

ADAMS.

Miss Lottie Adams is spending a few days at Trenton.

Miss Rosalind Jackson, of Trenton spent Sunday with her parents.

Miss Blanche De la Motte entertained a number of young people on Friday night last.

A number from here attended the ten meeting at Victoria on Tuesday evening.

Mr. and Mrs. W. W. Moore, of Housatonic, spent Sunday at their father's, Mr. Peter Jones.

A farewell party was given to Mr. Leonard Partridge on Wednesday evening at his home. He leaves in a couple of days for Montreal, where he has secured a situation on the dredge.

We are all very sorry to hear that Mr. and Mrs. Elijah Brickman have moved from our midst. During their short residence among us they have made a lot of friends, who all wish them success in their new home.

Health is Better.

"I had no appetite and could not sleep at night. I saw Hood's Sarsaparilla advertised and procured four bottles. My health is now better than it has ever been since I was a child, and I have not been sick for a long time."—Hood's Sarsaparilla, Montreal, Canada.

A Veteran's Death.

Mr. William A. Roblin, of the 7th con-
cession of Sidney, died on Tuesday morning at
his home after a lingering illness. Mr.
Roblin was a son of the late Rev. Philip H.
Roblin, and was a descendant of a
family of the earliest U. E. Loyalists.

When the 15th Battalion was organized
in this city Mr. Roblin was one of the first
to enroll. It was one of his lawfully proud
boasts that he was the first man who ever
wore the uniform of the 15th Battalion in
the streets of Belleville. He was an active
member with his local twice in U. E. L.
Belleville and Prescott—and was a member
of the Veterans' Association.

In accordance with his dying re-
quests, the officers of the Veterans' Asso-
ciation will have the funeral at his funeral to-
morrow afternoon.

Mr. Roblin's wife, who was Miss Maggie
Bond, of the Allen District, died about
two years ago. Two sons—Sylvanus, of
the town of Hart, and Philip, of the 2nd con-
cession of Hart, and two daughters,
Mrs. Geo. A. Baragar, of this city, and
Miss Sarah Laidlaw, of Hart, survive him.
He was a Methodist, and a fervent
adherent of his faith.

Board of Health.

A meeting of the local Board of Health
was held on Monday afternoon for the pur-
pose of organization. Those present were
Dr. A. Hart, John Taylor, R. B. Cooper,
Mayor Johnson, Medical Health Officer,
Dr. Tracy and Sanitary Inspector Morton.
On motion Mr. Hart was re-appointed
Chairman. The matter of placarding houses
in which disease existed was discussed
and instructions given to carry out the law
rigorously.

The Medical Health Officer reported the
health of the city as excellent.

The issuing of the notice to "Clean Up"
was left in the hands of the Chairman and
City Clerk.

DOUBLE MURDER AND SUICIDE

Orangeville Barber Shoots His
Wife, Another Woman,
and Himself.

All Three Victims Will Die—Tragedy
Occurred at Niagara Falls, N.Y.,
Where the Murderer and Suicide
was Working.

Orangeville, March 15.—News reached
town today that about eight o'clock, last
evening, Joseph R. Lathwell, barber,
eldest son of Joseph R. Lathwell, barber,
of this town, had shot himself, his wife, and
a young woman named Alice Toomey, with
whom he had been living at Niagara Falls,
N.Y.

The shooting occurred in the living apart-
ment over the barber shop, just after the
luncheon of the house had arisen, at 5 o'clock.
CAUSE OF THE TRAGEDY.

Jealousy was the cause of the trouble.
When Lathwell and his wife arose they
found a man named John Toomey, girl, and
Lathwell, becoming enraged, drew a revolver,
and began firing. "The women ran for
the stairs, but before they could escape he
loosed bullets in both of them.

Lathwell married Miss Addie Montgomery
in 1891. Marie about eight months ago,
and soon after, while on a trip east, met
Miss Alice Toomey on the same, and al-
ways to her. The two came and lived together
in this city. A short time ago Lathwell
with Lathwell, a few days ago the two
women came to live together
and were in Buffalo, and then returned to
the state, but before they could escape he
loosed bullets in both of them.

At noon to-day Dr. F. Guillemont stated
that all three of the wounded will die. The
bullet which Lathwell fired into his own
belly passed through the liver, and struck
the heart. One bullet passed clear through
Miss Toomey's neck, severing the spinal
cord, and before they could escape he
loosed bullets in both of them.

Mrs. Lathwell was shot in the lower part
of the left breast, and again in the back, on
the left side. This bullet delinquent down-
ward, and will cause death.

Bicyclists, Attention.

V. Wensley will open to-morrow, 17th,
and he has the best Bicycle on the market,
this is the Massey-Harris Wheel. Why is
it the best? Because the Co. only makes
one grade and that is the best. Reason No.
2 is that of the dealers who handled
bicycles in Belleville last year applied for
the agency for this year. He also has
wheels of several makes, which will retail
from \$40 up. It will be saving of money
intending purchasers to call and examine
these wheels before buying elsewhere.
Store next to Wensley's old stand. 17

THE SITUATION.

The standing of parties in Ontario is today as follows:—Conservatives (including Tupper) 44; a tie in appeal (West) 11; to elect (Russell) 1. Total, 94.

SNAP SHOTS AT TIMELY TOPICS.

The Conservatives have held their own, and more, in the recounts, having secured a tie in West Elgin.

If a law could be passed providing that returning officers should have ordinary common sense, the election would be a different matter.

The different political parties should employ a large corps of skilled physicians, for neither can afford to lose a single member.—Toronto Star.

The Laurier Government may not have selected the best route to the Yukon gold fields, but it is certainly the best route to the Yukon gold fields.

"CANADA'S GOLD AND OTHER MINERALS FOR BRITISH SUBJECTS." That is the policy for Canada at the present time, and it is certainly the best policy.

The hostile legislation of the United States Senate will force Canadians to raise again the political cry of 1878—"RECONSTRUCTION OR RECONCILIATION OR TARIFF." The policy of 1878-96 in that regard will not be repeated.

Can all that the down-town sheet says of its midway contemporary be true? It seems to be a case of first year, then more, then more, then more, then more.

Geo. Fisher Editor is surely mistaken in saying that the Dominion Government's promise of a sleigh road has drawn thousands of gold-seekers to the mouth of the Skitchee. Gold-seekers as well as others must be this time know what Liberal promises are.—Telegram.

Rev. Dr. Carman's position is understood to be about this: Rev. Dr. Dewar did wrong in trying to help the Liberal party at the expense of the Methodist Episcopal Church, and he is now being helped by the Methodist Episcopal Church.

Melons were grown by the old Greeks and Romans and were carried to America by Columbus. The watermelon is a native of Africa.—Exchange.

Doubtless in the fact last above stated is to be found the extraordinary fondness exhibited by the negro for the watermelon. Native of the same genus class, members of the same family: for is not the melon the fruit of one of the Cucurbitaceae (cucumber family) and is not the African "cucumber" a member of the same family?

MAJOR WALSH'S BEEF.

Senator Dewar Wanted to Know if the Comptroller Had Been Sent Out Short of Provisions. Ottawa News.

Ottawa, March 16.—In the Senate yesterday Senator Dewar asked if Major Walsh had been sent out to the Yukon district short of provisions, as that he had to pay a dollar a pound for poor beef. He asked this question because it was reported in the newspapers that Major Walsh had purchased 10,000 pounds of beef at that figure.

Mr. Mills said Major Walsh had taken with him ample provisions for himself and party. It was possible that he might have had to buy beef to provide for starvation, but he had not, but he did not believe the story.

Senator Houston gave notice of his intention to move for the correspondence between the Government and the House authorities in reference to the repatriation of the 10th Royal Canadian Regiment.

On the Fresh Salmon.

Commencing yesterday, collectors of customs throughout the country are required to impose a duty of half a cent per pound on fresh salmon. This duty was imposed by the Fielding tariff, but for some reason not explained it had not been collected.

Is It to Be Senator Willson?

The vacant Ontario Senatorship will be filled within the next few days. Mr. J. S. Willson, managing editor of the Globe, is spoken of as the likely man.

France-German Steamship Line.

At yesterday's meeting of the Cabinet it was decided to grant Parliament to grant an annual subsidy of \$80,000 for the Government steamers between Canada and France. Mr. Kleckowski, French Consul-General, was here yesterday, and Mr. Willson, Minister of Marine, said the Government had decided to make the offer.

Other Ottawa News.

The Canada Atlantic Railway Company has been asked to have some dredging done at Coteau Landing, to enable vessels to get to the new elevator of half a million bushels capacity which the company is fast completing there.

Mayor Parson and a civil deputation from Quebec are here stating the Government to do something towards preventing the old fortifications from crumbling away.

After Torpedo Boat Destroyers.

Washington, D.C., March 16.—The agent in the navy of the Torpedo Boat Destroyers of England, Mr. Platt, has submitted to Secretary Long a proposition for the sale to the Government of designs and complete working drawings for the magnificent torpedo boat destroyers built by his firm.

The craft, the type of those so strongly desired by the Navy Department, is not more than 80 knots speed and 300 tons burthen, large enough to be thoroughly seaworthy, and carrying sufficient coal at economical speed to run 4,000 knots.

The Pope Is With Spain in Sympathy.

London, March 16.—The Pall Mall Gazette publishes a dispatch from Rome which says that there has been a recent change of communications between the Vatican and Spain in regard to Cuba and the relations with the United States. The Pope, it is said, is ready to do everything in his power to prevent hostilities, "which might be fatal to the Spanish dynasty."

ONTARIO POLITICS.

Mr. Powell (Conservative) of Ottawa Finally Leads O'Keefe by 9-10.

Ottawa, March 16.—The final statement yesterday leaves Powell nine ahead. Judge McFadden concluded the account at 9-10. The total stand as follows: Powell 4,783, O'Keefe 4,589, Powell 4,548, and Slattery 3,964. The Judge will make his official return to Returning Officer Swedlow on Thursday, and in the meantime either party will have an opportunity of appealing from his decision in reference to the disputed ballots. The results show that Mr. Powell polled 167 plumpers, Mr. O'Keefe 129, Mr. Powell 467 and Mr. Slattery 198.

MR. RANTON ON DANCING.

Why People Should Not En-
gage in the Modern
Dance

The Best Society Does Not Dance—
An Active Christian Will Not Have
Time to Dance—The Dance Licenses
Liberty With Womankind.

At Bridge St. church last evening Rev. A.
H. Ranton gave as his subject the modern
dance. The audience was one of the largest
of the series, despite the threatening
weather.

With the help of God, he said, my theme
for this evening is, "The Modern Dance,"
and it will for us, at the beginning, to
understand the precise question for discussion.

I wish to disabuse your minds of any
preconceptions there being any narrowness or
bigotry on my part.

Being naturally fond of pleasure, and
believing that there is a "time to laugh"
as well as a "time to weep," I am in
thorough sympathy with an amusement or
recreation that can make the heart lighter,
our hopes brighter, and add to the sum
total of our enjoyment in the world.

It is freely conceded, then, that there is
a sphere and a place for amusements in the
life of old as well as young. The demand
for it is simply natural. There is an
appetite of eye, of ear, and of every sense,
for the gratification of which—within
bounds—God has abundantly provided the
material, and made it accessible to us.

Amusement in some form is essential to
the harmonious development of life's scenes,
and the right performance of life's duties.
"There is a time to play," and there is a
play side to our nature that fits into it. The
instincts of the race are not all wrong at
this point; and it does not help to a solution
of the question here involved for those who
can get on without play to insist that
everybody else shall do the same.

Dr. F. C. Hayden. More than this, the
demand for amusement is reinforced by
the character of the age. The age is one
of strain and tension, to an extent never
before known; all human activities are set
to a high pressure scale; this makes re-
laxation and diversion both fitting and
necessary.

Again, it is foreign to the subject to
discuss which the mode of dancing. Nor is
the question one of what the dance has
been in the past, and under certain
limitations, modifying, or restraining
might be, under some limiting or modifying
circumstances now.

The question we propose to discuss
concerns a social institution, with its
demand for amusement is reinforced by
the character of the age. The age is one
of strain and tension, to an extent never
before known; all human activities are set
to a high pressure scale; this makes re-
laxation and diversion both fitting and
necessary.

It is an institution in the social life of
the people and cannot be judged by the
parlor, or the "charity ball," or the
society, but must be judged by its effect on
the individual, the home and the spiritual
life of those who participate in it.

Let me speak of some of the excuses
advanced by dancers.

First excuse. People must have amuse-
ment and recreation. Certainly, but look
at the dancers next morning, and you will
conclude dancing is no recreation, but dis-
cipation. Dancing nears physical, moral
and spiritual dissipation. There are
many unobjectionable amusements that
give true recreation.

Second excuse. People might better
dance than do worse. They might better
dance than slaver others, or have "kiss-
ing plays." Yes, but if you stop dancing
you do not have to do worse. Can you
not keep from slandering your neighbor in
some other way? Kissing plays among
adults are things of the past, and are only
found among the most ignorant and un-
cultured. Let us also take the dance.

Third excuse. Dancing is an accom-
plishment. Indeed! Webster says, "An
accomplishment is an elegance of mind or
demeanor." Does dancing give you an
elegance of mind or a refinement of man-
ner? It prevents many from seeing how
little mind they have, and the necessity of
acquiring true accomplishments. Stop
your ears so that you can hear no music
and people dancing look like lunatics.
By the way, lunatics in asylums, and
out of them, are especially fond of
dancing. "Crazy dancing," "crazy man"
his senses will dance." Dancing is a sort
of subterfuge for those who lack mind.

Fourth excuse. If I don't dance I can-
not live in society. What society? Society
is society and there is society. The best
society does not dance. Instead of do-
ing yourself by running after a certain
worldly "upper ten" society, that is
at the top for a similar reason that
truth is shown to be of such intel-
lectual and social worth, that even
the so-called upper ten will rise to their
ideal of life and aspire to pass in your
society.

The best society consists of the earnest,
mature, Christian men and women in our
churches. "From 'The Parlor Dance,'" by
H. T. Crossley.

Over against these excuses I desire to
place a few propositions.

(a) No amusement is innocent if it
is not productive of good fruit.

(b) No amusement is innocent if it
is not compatible with a Christian profes-
sion.

The fact that you would condemn me for
patronizing the modern dance simply con-
demns yourself, because there are no
standards, one for the few and another for
the people. Of course, we judge this from
our standpoint as a Christian, and in so
doing, we say that.

A sensible Christian will not have time
to dance.

A loving Christian will feel that he can-
not (a moral canon) dance.

A spiritually minded Christian will not
have time to dance.

The question is often asked, Do you in-
clude the square dance when you speak
of the dance of modern society? I find it is

but a short distance from the square to the
round, and the square, say, the round.

There was a day when the stately old
squares and the plain country dances were
all-sufficient. But that has passed and
gone. The blood of young America is too
hot for the square dance. It does not
satisfy it simply enjoy the dance of the
present time. To one who learns to waltz,
the square dance is coarse and insipid.

The devotee of the waltz finds no other joy
quite so great, no other amusement quite
so fascinating, and though the young lady
may scarcely understand what it is that
causes her pulse to beat so quickly and the
blood to flow with such exhilaration, the
young man knows, her partner under-
stands it and she will know some day,
while in the common walks of life, which
some of you call vulgar, the square dance
is almost as perfect as the round.

II. THE MODERN DANCE FROM A BIBLICAL
AND ECCLESIASTICAL STANDPOINT.

Take first the religious dances of the
Bible:

1. Exodus, xv, 20: "And Miriam the
prophetess, and all the women went out
with the timbrels and dances."

2. Judges, xi, 34: "And Jephthah
came to Mizpah, and his daughter came
out to meet him with timbrels and with
dances."

3. I Samuel, xvi, 23: "The women
came out singing and dancing to meet King
Saul."

4. II Samuel, vi, 14: "And David danced
before the Lord." (Who do modern
dancers dance before?)

5. Psalm, cxix, 3: "Praise his name
in the dance."

Let us now refer to the Bible accounts of
letting us for the irreligious:

1. Idolatrous Israel: Exodus, xxxi, 10:
"And it came to pass, as soon as he came
high upon the mountain, that he saw the
people and the dancing. These were church
members that either never had been guilty
of bad back-sliding."

2. Degenerate Amalekites: I Samuel
xxx, 16: "Behold, they were spread
abroad upon all the earth, eating and
drinking and dancing." These were adults
that were wicked and not children.

3. Short-lived worldlings: Job, xxi, 11-14:
"They send forth their little ones like a
flock, and their little ones dance. They
spend their days in wealth. Therefore they
say unto God, Depart from us, for we
desire not the knowledge of Thy ways."

4. Herodias: the lewd daughter of an
adulterous mother: Matthew, xiv, 6-11:
"The daughter of Herodias danced before
them and pleased Herod." etc. This is a
sample of the kind of girls to whom
people have and depraved men.

It is evident that the characters referred
to in these passages strikingly represent
the several classes of persons who
frequent the dance. This character
should certainly turn every Christian moralist
and respectable person from even the
thought of dancing.

I think I have one ask, "Does not
the Bible speak about a time to dance?"
This phrase simply means a time when
people dance; but gives no sanction to
dancing any more than to hate or to kill,
for Solomon adds, "A time to kill, a time
to hate"—Eccles. ix, 3-8.

From the preceding quotations it will
suffice to appear, 1. That dancing was a
religious act, both of the true and also of
the false worship. 2. That it was practiced
exclusively on joyful occasions, such as
national festivals or great victories. 3.

That it was performed by children only.
That it was performed usually in the day-
time, in the open air, in highway, fields,
groves. 5. That men who perverted dance
from a sacred use to purposes of amuse-
ment were deemed infamous. 6. That no
instances of dancing are found upon
record in the Bible in which the two
noses united in the exercise, as in the
case of worship or amusement. 7. That
there is no instance upon record of social
dancing for amusement, except that of the
"vain fellows" devoid of shame and of the
irreligious families described by Job,
which produced increased injury and end-
less sorrow; and of Herodias, which
terminated in the execution of Herod and
the murder of John the Baptist.

Again, the great churches of Christen-
dom have taken a very decided stand upon
the modern dance. There are people who
say, "Our church allows its members to
dance." Then such people try to influence
others to become members of their church,
which, in many instances, is nothing more
than a social club.

Every evangelical church has pronounced
against the dance again and again, as if
from her pulpit. Protestantism, both in
theory and in practice, has been led by
large and interested congregations, until
it is a generally accepted truism
among all Christ-loving, God-fearing, sound
minded Christians, that the parlor or
will not preach against it, or see no harm
in it, must be a man ignorant for a
spiritual leader, or too cowardly for a
soldier of God; and while it is true that
many churches do tolerate it and tolerate
members in their communion who indulge
in it, the fact still remains that if it is a
Christian church or one that tries to be
such, it cannot tolerate it.

Every revival brings out some half
converted men, who, restless in the world,
and fearing the wrath to come, seek asylum
in the dance. They are willing to
cast their lot with spiritual power, and
still to serve God and man—hunt up
some worldly, bustling church where they
will receive a hearty welcome, dance, devil
and all.

For fear you who have not investigated
may doubt the point claimed for these
men, I will cite some utterances. Many
of these are already familiar by con-
stant repetition to the student of such mat-
ters. I begin with the eldest of all
churches, the Roman Catholic Church, and
from the pastoral letter of the Archbishop
and Bishops when assembled in Plenary
Council at Rome.

"In this connection we consider it to be
our duty to warn our people against those
amusements which may easily become
the occasion of sin, and especially
those which are already familiar by con-
stant repetition to the student of such mat-
ters. I begin with the eldest of all
churches, the Roman Catholic Church, and
from the pastoral letter of the Archbishop
and Bishops when assembled in Plenary
Council at Rome.

"The restrictions imposed upon the social
life during the Lenten season by the
branches of the church prohibits the in-
clusion of dancing in the festival and other
social festivities to special religious devotion

trought with the greatest danger to morals."

Now let us cite the Presbyterian Presby-
tery of the United States. The pleasure of the
ball room and the theatre are primarily in-
tended by the "dancing and stage plays" for-
bidden in the newer to the Bible. Question
in the Larger Catechism, the spirit of the
prohibition extends to all kinds of amuse-
ment which are calculated to excite
thoughts and feelings inconsistent with the
Seventh Commandment, as explained by
the Westminster Confession, c. 27, 28.

"That whilst we regard the practice of
promiscuous social dancing by members of
the church as a manifest heinous sin, we
also regard the practice of dancing, when
on the part of the heads of families as an
attempt to compromise their religious
profession, and the sending of children by
their parents to the dancing school as a
error in family discipline, yet we think that
the solemn of family discipline is fully com-
petent to decide when discipline is necessary
and the extent to which it should be ad-
ministered."

Would to God this last
thought was as true as those that precede
it. But when we sometimes find even
members of sessions, ruling elders in these
churches, who, in spite of all these solemn
warnings, are still dancing, and in some
cases in discharging the church of God by not
only tolerating, but encouraging the very
things—to the disruption of spiritual unity,
to the propagation of the worldly
spirit here so mourned—how can such a
session deal with a heinous matter
like this, and then, as he went
and sin against you first cast the stone. And
many a session, incompetent by the fail-
ure, laxity and sins of its own members,
upon whose heads holy hands have been
supposedly laid, finds itself helpless
and supine in the midst of a growing
tendency to worldliness; which, of course, unites
the church for spiritual work.

Then, if our sessions, boards of deacons,
and official boards generally, are guilty of
this kind of thing, how can they hope to
the evil and administer discipline, as the
General Assembly seems so fondly to imag-
ine?

Now for the Episcopal Church:
The following is the report of the
"The enormity of theatrical exhibitions,
and the lawlessness of dances, too com-
monly tolerated in our times, are so dis-
graceful to the age and so irreconcilable
with the gospel of Christ, that I feel it my
duty to the souls of my flock to warn those
who run with the word to the same ex-
cess of riot in these things, that they pre-
sume not to come to the holy table, unless
preparing for confirmation are informed
that I will not lay hands, knowingly, on
any one who is not prepared to renounce
such things, with other abominations of
"the world, the flesh and the devil." Let
all such choose deliberately when they will
serve, and if salvation be worth striving
for, let them be persuaded to a sober life,
to self-denial, and to the pure and innocent
enjoyments, which the gospel not only per-
mits, but commands, and which are like
the fruit of the tree of life, and like the
vine, in that a view of life is thus, namely,
taking Christ as our example and being
led of the Holy Ghost in all things, car-
dinal and dancing have no place."

The view of the Baptist, Methodist, and
other Christian churches are well known,
and I will only state that they are very
strongly opposed to dancing, as it is
commonly observed.

It will be a fitting close to this part of
my address to borrow from Evangelist Cross-
the views of eminent clergymen and
evangelists that he has carefully selected
and printed in his sermon—"The Factor
Dance."

Rev. Dr. A. T. Pierson affirms: "The
modern round dance is to me a specially
horrible, it is an iniquity and a snare."

Rev. Dr. Talbot says: "The round
dance is an administrative of evil, and
ought to be driven out of all respectable
company."

Rev. Dr. Howard Crosby declared:
"Three-fourths of the abandoned girls of
New York were ruined by dancing."

The most noted evangelist in the
churches speak out against the social dance.
Rev. D. L. Moody, in the city of London,
declared: "I would as soon see an
angel go out into the street and eat mud as
to dance."

Rev. E. P. Hammond said in St. Cathar-
ines: "As Christians we must draw
the line somewhere; we should certainly
draw it so as to exclude dancing."

Rev. S. P. Jones with more truth than
poetry, says: "Dancing is hugging not
to music."

Rev. J. E. Hunter says: "God have
mercy on the mother that has no more
sense than to send her pure daughter to a
dancing school."

Rev. Geo. F. Postonette affirms: "I
do not see how the modern dance, as
social dance is essentially immoral. No
woman, married or single, can participate
in the dance and retain the firm, leaven,
clear pure edge of her modesty—I do not
say, clear pure edge of her modesty—I do
say, clear pure edge of her modesty, and
the keen, sensitive edge of modesty
and womanly delicacy has already
gone. The dance is a social sin, and
only shows that there is a resurrection of
the bluntness that the modern dance has
killed, and sent back to its grave."

"FROM THE MIRE TO THE CHOIR."

Fine Singing—Another Immense Audience—Next Week to be the Last.

The ushers of Bridge St. church continue to wear pleasant faces, and to greet strangers as pleasantly as if it was not hard work they had to do. Again the difficulty presented itself last night to know how to seat the great throng, but it could not be done; many had to stand.

Mr. Ranton said the congregations were the most orderly he had ever seen, and the ushers were again thanked for their services by him.

The Rev. Frank B. Stafford took charge of the singing, and several songs, and was welcomed back to Belleville by many friends at the close of the meeting. He was warmly welcomed to the last service.

The male quartette of Albert College rendered a number, which was much appreciated.

Mr. Ranton's sermon was entitled "Out of the Mire into the Choir," and was based on the words of the well-known text, "He took me from an horrible pit and from the miry clay and set my feet upon a rock." He spoke of the last service, when men fell into the mire of unbelief, the mire of uncleanness, the mire of profanity, the mire of slander.

He showed by numerous remarkable instances that he was familiar with how God had delivered men from the mire of unbelief, from uncleanness, from profanity, from evil habits, from the mire of sin, given them power to overcome, taken away the very appetite and desire for the things they had loved in the past, and made them new creatures in Christ Jesus, had actually re-created them, so that the things they once loved now they hated, and the things they once hated now they loved.

From the mire of sin He had brought them to sing a new song, the song of redemption through Jesus Christ—had introduced them, therefore, into the choir of angels, redeemed spirits and of God's church on earth.

With tender appeals he asked all to leave, by God's grace, the mire of sin, into which they had fallen, and to join those who had new songs put into their mouths, even praises to God.

The after-meeting was the most remarkable of the series. Many publicly proclaimed their resolve to get "out of the mire into the choir," by giving their lives to Him who had purchased their redemption with His great sacrifice.

Bicyclists, Attention.

W. Wensley will open to-morrow, 17th, and has the best bicycle on the street, that is the Massey-Harris Wheel. Why is it the best? Because the Co. only makes one grade and that is the best. Reason No. 2 is the fact that the dealer who has the wheels in Belleville last year applied for the agency for this year. He also has wheels of several makes, which will retail at \$40 up. It will be a saving of money to intending purchasers to call and examine these wheels before buying elsewhere. Store next to Wensley's old stand. 17.

Lillian Kennedy Dead.

Lillian Kennedy, the actress who was a favorite with Belleville theatre-goers, and who was stricken with paralysis while performing in Utica last Saturday night, died on Tuesday. The actress, who in private life was Mrs. Charles Hansenford, never regained consciousness after she was stricken, though hours were entertained for her recovery, and she died surrounded by her husband and the members of her company.

Mrs. Kennedy's ailment first manifested itself a few weeks ago in Rochester, when she suffered a mild stroke of apoplexy. Week before last she received a second stroke while playing at Oneida, and for several days she was confined to her bed in that village. A number of engagements were cancelled, and the little theatre of Oneida, zealous, and determined to finish the season's engagements, which extended into June. Miss Kennedy's home was in Philadelphia, and her death in the theatrical profession was a star in "She Couldn't Marry Three," a play often produced in the opera house in this city, both by the late Annie Freely and Miss Kennedy. She was a native of Ireland, and was 36 years of age, but had been in this country 28 years.

Children's Clothing

Quick & Robertson, the new clothes on door south of Anglo American, are showing an extensive range of Children's Clothing. Their little Brownie suits are great favorites and are finding a ready sale. They give you up-to-date styles and save you money.

Opera House.

The "White Crook Burlesque," which will be at the opera house Thursday, March 24th, and there is no question but that the theatre-goers public are in for an avalanche of fun and policy, from the fact that the White Crook are fully equipped with a class of superior talent that should make the performance go fast and furious. The comic elements are said to be more than clever, and ample opportunities are given to them to show their eccentric drollery. The burlesque, there are two, are two of them, one called "Bachelor's Matrimonial Hunt" and the other "Vassar Girls in Camp," are new and original and entirely out of the regular rut. The olio is very strong and novel and is furnished by well-known members of the vaudeville profession. During the action of the extravaganza there will be introduced the famous "White Crook" gawotte, given by eight French comedy dancers, and it is said that they are bound to create a furore. The costumes, scenery, music and electrical effects are truly magnificent, the whole forming an entertainment that cannot but please the most connoisseur. Prices, 25c, 35c and 50c.

Their China Wedding.

Mr. and Mrs. W. A. Pringle, Earl St., were married twenty years ago yesterday, and last evening they celebrated their china wedding. The guests numbered about seventy and they spent a pleasant evening. Many of those present expressed the hope that Mr. and Mrs. Pringle would live to celebrate their golden wedding.

Executive Committee

The Executive Committee of the City Council met last evening and passed a number of accounts. It was reported to the Committee that the consolidated by-laws were about ready for distribution. It was decided to advise the tenders for printing one hundred copies of the Auditors Report. The Mac Machine Co. applied to the Council for exemption from taxation for ten years. The Committee recommended that the petition be granted.

A Cheap Bicycle.

The Oak Hall has received a sample Stearns' gent's wheel. We think the bicycle business in Belleville is pretty well overdone and have decided not to take an agency this season. You know what a Stearns' wheel is. This sample is 68 gear and a little beauty. We will sell it for \$45 and a little beauty. Who will be the lucky man?

Executive Committee

The Executive Committee of the City Council met last evening and passed a number of accounts. It was reported to the Committee that the consolidated by-laws were about ready for distribution. It was decided to advise the tenders for printing one hundred copies of the Auditors Report. The Mac Machine Co. applied to the Council for exemption from taxation for ten years. The Committee recommended that the petition be granted.

THIEVES IN SWELL CIRCLES.

Ottawa Society in an Excited State Over Robberies.

Social Functions Harmed, After the Fact, by the Disappearance of Valuables. Fire Water Steals Trouble on the Ottawa Indian Reservation—St. Patrick's Celebration—Drummond County R. R. Deal—Ottawa General News.

Ottawa, March 19.—Society circles in the Capital are excited just now. For some time robberies have taken place at almost every social event. And this, despite the watchfulness of the tried and trusted servants. At a tea given by Mrs. R. W. Scott recently, Miss Scott was one of the victims. Her loss amounted to \$12. Cash only was taken. Money was also taken from ladies' pockets at Mrs. Palmer's at home, Mrs. Lawrence, Mrs. A. F. McIntyre and another lady's village. A third robbery was at Miss. Counsel's music party, and as only ladies were present the thief is suspected to be one of the fair sex. The perpetrator of the robberies has been detected and has confessed. Owing to the highly respectable connections of this person, no criminal action will be taken in the matter, but it is stated that the person will no longer have the opportunity for committing further robberies.

Fire Timely Arrives. Chief Timothy Arrifion, a delegate from Ottawa, was here yesterday with a grievance before the Department of Indian Affairs. He states that the existence of two licensed hotels in their village is causing much trouble. It has proved a great temptation, he says, to the Indians during the years since the introduction of the "cursed stuff," as he calls it on the reserve. Consequently the Indians are appealing to the Government to take steps to Canada to interfere and take such steps as will remedy the evil. He says that to entirely prohibit the sale of intoxicants on the reserve would be perfectly justifiable.

An Immensely Successful Affair. St. Patrick's Society last night had the most successful ever held under the auspices of that society. Lady Abernethy delivered an address on Celtic poetry.

Whereas and Elevators at Levis. "Do you want wharves and elevators?" asked Mr. Tarte of the Levis electors, during the election of last fall. Of course they did, so they returned Mr. Tarte's promise, and now they want the goods delivered. A delegation from that town was here to see the Minister of Public Works about it yesterday. The delegation were the Mayor, J. R. Roy, A. L. Michaud and Mr. N. N. Oliver, M.P.P. They asked first that the sum of \$40,000 be promised for the improvement of the Intercolonial station at Levis be expended. They want the wharves there to be provided to provide better access to the station, chiefly for the accommodation of the growing lumber traffic. Still another request is to be allowed to construct a wharves at the Port about three miles back from the town. This latter request was addressed principally to the Minister of Militia, the other Ministers present being Sir Wilfrid Laurier and Messrs. Tarte, Blair and Sir Henri Joly. The delegates were promised a speedy answer to their demands.

A Quebec Delegation. There was a delegation also from Quebec headed by Hon. P. G. Gagnon, received by the same Ministers. The delegation urged that the Federal Government grant a bonus to the Great Northern Railway of \$1,000 per mile for 100 miles of the road. This is the project which is designed to connect the Ancient City with the Canada Atlantic and Parry Sound systems.

Sir Wilfrid Laurier, speaking for the Government, returned the rather chilling reply that it had been decided not to ask Parliament to grant another railway.

Drummond Railway Inquiry.

What a row would have been raised in past years by James Dyer, M.P., chairman of the Drummond County Railway Investigation Committee, if, as a private member, he had been shut off from obtaining information at a Parliamentary inquiry in the manner that he applied the clause yesterday to Conservative members of the committee.

Examination of Mr. J. N. Greenfield was resumed by Mr. Dyer, who wanted to find out all about the stock. Mr. Greenfield said he held \$200,000 of the stock and obtained about \$120,000 at par and the balance at various prices. Proceed to say from whom he purchased the stock obtained below par, and at what prices. Mr. Greenfield told Mr. Dyer that he might as well ask him the amount of his grocery bill.

The chairman ruled that Mr. Greenfield need not answer, and the committee being divided, sustained the ruling.

Mr. Dyer produced a copy of an opinion on the purchase of the line given by Mr. Greenfield, Mr. Church and the other owners of the line, in 1884, to Mr. William Farwell, who, in 1884, who in turn assigned his option to Mr. Hugh Ryan, contractor of Toronto, who was to enter into negotiation with the Conservative Government for the purchase of the line or the leasing of the line for \$100,000 per annum, or the purchase of it for \$17,500 a mile. The arrangement was that after the line was sold to the Government by Messrs. Ryan and Farwell, say, for \$2,500,000, the subsidies on the extension were to be added, and the cost of the line to Chaudiere was to be deducted and the difference between that and the \$500,000 was to be divided into thirds, Mr. Farwell and the shareholders to receive a third. Mr. Ryan was to get the balance.

Mr. Greenfield explained that Mr. Farwell obtained the option of the line because he did not want the nature of the transactions or negotiations for the purchase of the line by the Government to be known after the Liberal Government came into power. He (Greenfield) secured a similar option.

Messrs. Farwell and Dyer questioned the witness closely to ascertain his exact connection with the purchase of La Patrie, to establish the difference between the statements made by Mr. Greenfield and the Minister of Public Works.

The Conservative members of the committee also pressed Mr. Greenfield to acknowledge that La Patrie was purchased out of the Liberal party funds, held by him, which the witness did not admit.

Mr. Samuel Newton, secretary of the company, testified that the original paid-up stock of the company totaled about \$400,000. The stock to day consisted of 400 shares, of which Mr. Farwell held 100, Mr. Mitchell 100, and Mr. J. N. Greenfield 200. The Federal subsidy totaled \$287,986, and the Provincial subsidy \$247,491. The total indebtedness of the company is \$535,000.

The committee adjourned.

Personal and General Notes.

Hon. David Mills announced his intention of giving a lecture before the members of the Political Science Club on April 7, on the political theories of the late Henry George.

A party of M.P.'s left yesterday afternoon for Cookshire, where they will be the guests of Rufus P. Pope. They will remain until Monday and witness signing operations in the townships.

H. R. Gagnon of Quebec and Mr. J. N. Greenfield of Ottawa were in Ottawa yesterday to submit proposals for establishment of the direct steamship line between France and Canada on a subsidy of \$50,000, each from the Canadian and French Governments.

A chess board is to be formed in Ottawa. The corporation will defray part of the expense.

The bill to amend the criminal code with respect to cruelty to animals, which imposes a heavy penalty for the docking of horses by other persons than veterinary surgeons, has been referred to the Committee on Agriculture.

Mr. Dyer will introduce a bill for the prevention and suppression of combinations formed in restraint of trade. Mr. Dyer has given notice of a series of enquiries touching the repairs to the roof of the west block. He will ask if it is true that the iron for the new roof had been purchased in Belgium.

Gen. Gascoigne has just returned from Washington, where he has been on a brief holiday trip.

THE ELECTION APPEALS.

West Egin and West Huron Cases to Come Before the Judge Today—Particulars Outlined.

Toronto, March 18.—The West Egin and West Huron appeals are set down for hearing at Osgoode Hall to-day, the former before Mr. Justice Macdougall, at 10 o'clock and the latter before Mr. Justice Ooster at 2 o'clock. It is doubtful that the West Huron case will go on to-day.

Mr. McNish of West Egin, who was awarded the seat by the casting vote of the returning officer, has appealed upon 20 ballots, and Mr. McDougall upon 16. The ballots in dispute on both sides are so similar that the appeals will practically be heard together. Sixteen of the affected ballots counted for McDougall and 5 of those allowed to Mr. McNish were marked with a cross, to the right instead of to the left of the name, and the number is A. B. Ayleworth, Q. C., and E. F. B. Johnson, Q. C., will appear for Mr. McNish, and Wallace Nesbitt for McDougall.

In the West Huron case, C. A. Macken is acting for Mr. Beck, who was given a majority of 3 on the recount. The Liberal candidate, Mr. Garrow, disputes 7 ballots and Mr. Beck, in his own right, 9 or 10. Mr. Garrow's appeal will be heard first, and if Mr. Beck is sustained his appeal will not go on.

Of the 7 ballots disputed by the Liberals, 3 were discoloured, and a single one counted for Mr. Beck. Of the 7, 2 were marked for Mr. Garrow with a single stroke, 1 ballot having a perpendicular and the other a horizontal stroke. A third ballot, marked also for the Liberal candidate, had upon it the initials of the poll clerk. One of the other 4 ballots were marked with an inverted "V," another has many lines apparently crossing out the original mark, another has the official number torn off, and the fourth has the initials "A. G." near the cross in the ballot.

DR. JESSOP BADLY HURT.

The Newly-Elected Member for Lincoln Had an Unfortunate Experience.

St. Catharines, March 18.—To-night, as Dr. Jessop, the newly elected M.P.P., was driving rapidly along Welland avenue, having been attending to his professional duties, his horse became frightened, and he was thrown some distance out of his rig, striking on his shoulder and bleeding profusely, and conveyed to his home, where it was found his collarbone was broken and his head badly injured. He had also some bad cuts. Some children playing ball in the road were the cause of the horse taking fright. The doctor has since regained consciousness, and is resting as easily as can be expected.

Charles Gammon's Body Came Up. Collingwood, March 18.—The body of Charles Gammon, Jr., son of the late Charles Gammon, solicitor of this town, was found floating in the bay yesterday afternoon almost close to the place where he was supposed to have walked over the wharf last December.

WHEAT STRONGER. Futures Advanced in Chicago and Liverpool. A Lively Decrease in the Visible. The Local Market.

Friday Evening, March 18. It is expected that the visible supply of wheat on Monday will show a decrease of 100,000 bushels. A lively market is expected on Monday last year.

It is estimated that Europe's minimum weekly requirements of wheat for the month of March will be 1,000,000 bushels, and that probably maximum shipments will be 1,200,000 bushels.

The market showed considerable improvement today. The Liverpool closing for March and April was 10s. 6d. and 10s. 4d. respectively. The London market was firm, and foreign markets were firm. In Chicago, wheat was 10s. 6d. for the month of March, and 10s. 4d. for the month of April. The market was strong, and the price of wheat was 10s. 6d. for the month of March, and 10s. 4d. for the month of April.

Toronto, March 18.—President Mills of the University Agricultural College was at the University buildings yesterday, and had a conference with the Minister of Agriculture. The subject under discussion was reported to be the appointment of the vacant chair of history.

It was said that had been received by the President from the students a note requesting appointment of a young graduate whose name "pail," they thought, was the strongest claim to the position.

Among the other visitors at the Building were: Mr. McNish, the deputy returning officer's representative from West Egin; Mr. Dyer, M.P.; of Brockville; and Col. Muir of South Welling town.

THE ROYAL TEMPLARS.

Proposed to Lessen the Total Disability Free-Social Party Department and Other Reports.

Hamilton, March 18.—The Royal Templars' Dominion Council continued its session yesterday, taking up committee reports. The special committee on the total disability fund presented a report recommending a scheme for forwarding the fees and collecting them more fruitfully.

The Committee on Laws recommended that in the case of those members going to the Klondike, not requesting permission of the Dominion Council, that the order would not remain liable to pay their insurance claims in case of death.

The Dominion Government will be asked to take steps to stop the sale of intoxicating liquor in the Yukon, and to prohibit the sale of liquor in small quantities by brewers in the Northwest Territories.

THE RAILWAY WAR.

The Great Northern and Northern Pacific Stand in the Way of a Settlement.

New York, March 18.—At the meeting of the passenger and freightage of railroads to try and the rate war between American and Canadian roads, the committee of four presented a resolution providing that an arbitrator be appointed on or before March 20, who should decide upon the points in contention. All the roads agreed except the Great Northern and Canadian Pacific, who on account will report to their superior officers.

"MUCH ADO ABOUT NOTHING."

The Globe professes to have unearthed a plot to sell the Drummond County Railway to the Government in 1890 at a figure very far above its value, namely about \$2,250,000.

According to the story told by our contemporary, Sir Mackenzie Bowell was Premier when this alleged plot was hatched. That is one strong piece of circumstantial evidence against the truth of the story; for even the Globe will venture to charge against Sir Mackenzie that he is either a corrupt or so lacking in vigilance as to have allowed such a transparently corrupt bargain to be made whilst he was at the head of affairs.

The Globe, moreover, discredits its own statement by virtually confessing that the late Government knew nothing of such a plot, if it ever had any existence.

It is decidedly another case of "much ado about nothing."

Our contemporary's romance may have one good effect, namely that of securing a thorough investigation of the whole matter by the Senate, which the Globe attempted to head off by appointing a good safe partisan committee of their own, with one of the most unscrupulous of their partisans to preside over their deliberations.

12 CANADIANS ON BOARD.

Two of Them Were Lost From the Cruiser Maine.

The Others, Suffering From Injuries, Were Sent and Are Now at Key West. Gen. Pando Captured by the Cuban Rebels Again Will Say War Before Shaming Active Preparations Still Going on in the United States.

Toronto, March 21.—The following information has been furnished by Commander Knowlton of the Toronto post of the Grand Army of the Republic: Bureau of Navigation, Navy Department, Washington, March 17, 1898.

Dear Sir:—There were twelve Canadians on board of the cruiser Maine at the time of her destruction: Bartley Fountain, lieutenant, first-class, and George Lapierre, apprentice, first-class, lost; William Mattison, ordinary seaman, seriously injured; and the remainder, suffering from slight injuries, were saved, and are at Key West. Respectfully,

(Signed) J. H. McPherson, Commanding Officer, U. S. Navy.

WAR BEFORE HUMILIATION.

Senior Republicans Fear That the Spanish Revolution May End in Defeat.

Berlin, March 21.—The Local Anarchist publishes a dispatch from Madrid giving the substance of an interview with Sen. Romero y Canals, the former Minister of Justice, in which he is stated to have said that the Spanish Government is unable to subdue the rebellion, which is more than ever, and the situation with America is most critical. He does not know how far the Americans mean to go, but, in any case, Spain professes war to humiliate America. He says that the Spanish Government could propose the cessation of Cuba and the other islands, but some death to shame. No Spanish Government could propose the cessation of Cuba and the other islands, but some death to shame. No Spanish Government could propose the cessation of Cuba and the other islands, but some death to shame.

GEN. PANDO A CAPTIVE.

The Spanish General Now Held by the Rebels.

Key West, March 21.—The report to the effect that the insurgents have captured the Spanish General Pando, is confirmed from the capture of the General. Pando is the beginning of the end of the Spanish revolution. Pando started out to conduct the campaign and pacify the eastern provinces of Cuba, taking with him all available military force. He was, however, defeated by the rebels and was taken prisoner. He is now being held by the rebels and is being treated with great respect.

APPEAL TO THE SENATE.

Three Kindred Men's Petition to the Senate.

Ottawa, March 21.—The three kindred men, who have been arrested by the mine of the Klondike in connection with the mining laws, have arrived here and interviewed the Minister of Justice. They are Mr. Martin Landroff, representing the French Canadian, Dr. A. E. Wills, representing the English Canadian, and Mr. E. J. Livershaw, representing the American Canadian. They have issued the following circular to the members of the Upper Chamber:

"Honourable Sir:—We have been arrested by a majority of the mine of the Klondike in connection with the mining laws, and we have been held in custody for some time. We have been held in custody for some time. We have been held in custody for some time."

We and Parliament are considering a bill providing for the mine of the Klondike in connection with the mining laws, and we have been held in custody for some time. We have been held in custody for some time. We have been held in custody for some time."

Permit us to appeal to the Senate for the purpose of addressing all the members of the Senate. We have been held in custody for some time. We have been held in custody for some time. We have been held in custody for some time."

WEST ELGIN APPEAL.

Argument at Osgoode Hall on Saturday.

Toronto, March 21.—The West Elgin election appeal was argued before Hon. Mr. Justice G. B. Patterson at Osgoode Hall on Saturday.

The result of the recent before the County Judge was a tie, the casting vote being in the hands of the returning officer, Sheriff Brown.

Mr. Daniel Marshall, the Liberal candidate, was of opinion that the return was null and void, and that, in appeal, would be awarded to him and thus give him the seat.

The argument on Saturday was chiefly on the allowance or disallowance of 21 ballots, which were declared void by the judge in the official return.

They were all marked on the left, instead of the right, and the returning officer, Mr. Marshall, was of opinion that the return was null and void, and that, in appeal, would be awarded to him and thus give him the seat.

Mr. Aylsworth and Mr. Johnston, in reply, however, contended that the ballots were not marked on the left, but on the right, and that the return was valid.

The judge, after a long and careful consideration of the evidence, decided in favor of Mr. Marshall, and the return was declared null and void.

from Shanghai says: A conspiracy, with
the object of bringing about a rebellion, has
been started by Chinese officials of vari-
ous ranks at Changsha, in the Province
of Hunan. It is said to have spread to the
Kiang, and fears are expressed that it
may prove to be the forerunner of a
general rebellion. It is pro-
posed to overthrow the Manchou dynasty and
replace it by a republic. The conspirators
are said to have a large sum of money
for arms.

the object of bringing about a rebellion, has
been started by Chinese officials of vari-
ous ranks at Changsha, in the Province
of Hunan. It is said to have spread to the
Kiang, and fears are expressed that it
may prove to be the forerunner of a
general rebellion. It is pro-
posed to overthrow the Manchou dynasty and
replace it by a republic. The conspirators
are said to have a large sum of money
for arms.

DRUMMOND RAILWAY JOB.

What a Partial Investigation has Disclosed.

A Plot to Unload the Road on the Government—Hugh Ryan to Have Been Richly Rewarded for his Services—Conservative Government Never Heard of It—Present Government's Deal—How Did Greenfield Get His Stock.

(Montreal Star, March 22.)

The Drummond County Railway investigation has already brought out abundant evidence to justify the assumption that the bargain made by the present Government for the purchase of the road was a disgraceful one; and that the Senate was justified in throwing out the bill to sanction the contract; and also to show the necessity of pushing the investigation further.

The evidence shows that the owners of the road have been trying for years to sell it to the Dominion Government, but as everybody knows, without success until the present Government got into power. According to Mr. Greenfield's evidence the present shareholders are Mr. Greenfield, who owns 2,299 shares; Mr. Mitchell, who owns 1,631 shares; and Mr. Farwell, 700 shares. How much money was actually paid for these shares is not yet known.

Mr. Greenfield's story is that he got the stock, or what he paid for it, and the chairman of the investigation committee sustains, by his casting vote, the objection.

The President of the Company also produces an option granted to Mr. Farwell by the then shareholders, July 16, 1894, and renewed from time to time, by which they undertook to sell the Drummond County Railway stock and barrel, to Mr. Farwell for \$500,000. For this round sum they undertook to deliver the whole property, including rolling stock, and free from all encumbrances. Mr. Greenfield, however, supplements the option with a verbal explanation, that there was a private understanding between the shareholders and Mr. Farwell, by which they hoped to get a rather better price than was called for by the option.

He states that Mr. Farwell was negotiating with Mr. Hugh Ryan, contractor of Toronto, for the sale of the road to the Dominion Government upon the following terms: The price to be asked from the Government by Mr. Farwell was \$2,257,500. Out of this sum about \$501,000, the cost of the road, was to be paid to the shareholders, the balance of \$1,756,500, purchase money, the balance was to be divided into three equal parts, two of which were to go to Mr. Ryan, and one to the shareholders.

It will be seen that under this arrangement the shareholders were to get for their property about \$501,000.

This interesting little deal did not go through, however, as the proposition was never submitted to the Council. The option was signed in July, 1894, and no doubt was continued in effect until the evidence is chiefly interesting as showing upon what terms the shareholders of the Drummond County Railway were willing to dispose of their property.

That they were willing to sell for \$705,333, if not for \$500,000, and that they were not averse to the Dominion Government buying the road for \$1,756,500, the difference, \$1,251,166, to go to Mr. Hugh Ryan for his influence in selling the road.

Mr. Farwell, although the proposed deal with the Conservative Government did not go through, the Liberals had not been in power many months before a deal with Drummond County Railway Company was struck through, for it was on March 24, 1897, that the Order-in-Council was passed authorizing the contract. The price was \$501,000 per cent. in ninety years, which is the interest at three per cent. (a rate at which the Government can borrow all the money it wants) on \$1,756,333. The option given to Mr. Farwell included the rolling stock and the agreement signed by Mr. Blair gave the Government the right to buy the rolling stock at a valuation of \$100,000. The Fate of A Candy Box

It is determined by its beauty. If pretty and attractive it is kept in sweet remembrance and insures a future kind thought for the confectioner. If meanly constructed its life is short and comes to an ignominious end in the trash barrel. We study the art of pleasing the eye as well as the taste.

NOT ORNAMENTS ONLY.

In view of the great value of glasses to every individual at some period of life, and of their absolute necessity to many others at all ages, it is high time that all prejudices against their use should be done away with. Ill-fitting glasses are disfiguring, but our skilled optician gives due consideration to the size and shape of the wearer's face, and reduces the objectionable features to a minimum.

One hundred and fifty men are now engaged in the Crookton quarry. The quarry has been laid off recently by the north quarry in consequence of the completion of the Victoria bridge at Cornwall.

The last lecture of the season's course in connection with the Methodist Tabernacle will take place on Friday evening, March 25th, when Rev. Dr. Galt will deliver his attractive and interesting lecture entitled "Great Questions Satisfactorily Answered." Chair taken at 8 o'clock. Single tickets 10c. Rev. Newton Hill, Pastor.

The list of salaries paid to Ministers in the Methodist church of Canada, shows that there are only ten in the Dominion who receive \$2,000 or over; 125 receive between \$1,000 and \$2,000; 480 get from \$750 to \$1,000; and 380 get less than \$750. About five-hundred of the pastors are living on salaries between \$500 and \$1,000.

An evangelist up in Belleville has been talking on dancing lately and says among other things that as women are cutting off the tops of their dresses to go to dances and cutting off the bottoms to go to parties, it is a shame to tell them they will go to hell. It seems to us that they will have to go to a warmer climate than Canada—Hockville Recorder.

The Montreal Gazette says: "The conductors running on the eastern division of the Grand Trunk Railway system are about to present to Mrs. David Turnbull an oil painting of her late husband, as a token of the esteem with which he was held by them. The picture is exceedingly life-like, and is the work of Mr. H. Cuddy, a rising young artist of this city, and who gives promise of achieving distinction in his profession."

Another Klondiker Returning.
We are informed that Mr. Sidney S. Moore has been ordered by physicians to return home at once, as owing to exposure and hardship his lungs are enfeebled. Mr. Moore has wisely concluded that "the best cure is the better part of valor" and is now on his way home.

DARING BURGLARY.

Midnight Mechanics Took Mr. W. L. Hamilton's Watch and Money.

That there are in Belleville some desperate characters is evidenced by the daring burglary that took place last night at the residence of Mr. W. L. Hamilton, District Inspector of Inland Revenue, at the corner of Bridge and Charles Sts.

When Mr. Hamilton awoke this morning he missed his clothes from his room and in looking about found evidences that led him to believe someone had been in the house. He found a flat file about a foot long, which had been used to open the dining room window, where the burglar or burglars had gained admittance.

Upon going into the porch he found his clothing lying there with the pockets rifled of their contents. The intruders took a valuable gold watch belonging to Mr. Hamilton and greatly prized by him as an heirloom. They also took a sum of money from his pockets and some papers.

A large amount of silverware and jewelry was untouched. The thief or thieves did their work quietly, as none of the family were awakened. The only clue is the file used in raising the window. The police are working on the case.

Two Warnings.

Losing flesh is one and hatching cough is another. If you can get together the warning is a loud and hard cough. Scott's Emulsion does some of its best work in just these cases. It prevents consumption.

"NO OFFENCE DISCLOSED."

Spirituous Liquor at an Election—Limitation of the License Act.
Tuesday, March 22.—E. R. Huxley was summoned to appear before Magistrate Flint, of Belleville, at the Town Hall here, to answer to two charges of giving spirituous liquor to two men within the limits of a polling sub-division on March 11th election day. On the charges being read, it was objected that no offence was disclosed, inasmuch as it does not appear that the giving had taken place on licensed premises, section 58 of the License Act providing that "no sale or other disposal of liquor shall take place on any licensed premises within the limits of a polling sub-division on any polling day for or to any election of a member for the Legislative Assembly from or after six o'clock in the morning of the said day until the following lawful day at six o'clock in the morning." This objection seems to have been anticipated by the prosecution. Judge Magistrate Flint, acting under instructions from the Police Magistrate, at once dismissed the charges. Mr. Huxley, Solicitor for the License Holders Association, appeared for Huxley.

A New Organist.

The Rector and Wardens of Christ Church are to be congratulated upon having secured the services of Prof. Thomas W. Wilmont as organist and choir master. Mr. Wilmont is an honored graduate of Trinity College, London, Eng., and furnishes testimonials of the highest character as to his efficiency in all departments of his profession. Prof. Wilmont will enter upon his duties on the 30th inst. The intention is to reorganize the choir. A limited number of boys and young girls will be admitted for voice culture, whose voices will be of great value in the choir and providing they comply with the rules of admission. Application may be made to the Rector for admission, which will be considered in order of receipt.

Married Last Evening.

A quiet wedding was celebrated last evening at the residence of Mr. Harry Janeway, Pope St., when his daughter, Miss Frances, was united in marriage to Mr. David Kony, of Sudbury. Miss Maggie Duffin supported the bride and Mr. Edward Janeway was groomsmen. Rev. A. L. Goss officiated, and after the ceremony the company, which was composed of a few intimate friends, partook of a wedding supper. The bride received a number of beautiful presents. The happy couple will leave on Monday next for their new home.

OBITUARY.

GEORGE W. O'KEEFE
After an illness of several months George W. O'Keefe died at his father's residence on Moira St. this morning. He was the only surviving son of Daniel O'Keefe, and a brother of Miss Edith O'Keefe, clerk in Stroud Bros' store. Deceased was about twenty-six years of age and was married. He was employed for several years with R. B. Cooper as teamster and was always a quiet, well-behaved young man.

Truly Grateful.

Manager Adams, of the Carman Opera House, says he is grateful to Mr. Adams for the manner in which he has advertised for the management of the Carman Opera House, and his appreciation is shown by the fact that he has presented the evangelist, with two complimentary tickets for this evening's performance.

A Denial.

Mrs. Eliza Burton, mother of Stephen Burton, writes: "I wish you would correct a statement you made in your paper last night that Stephen was about to marry. I told P. C. Hoyer when he came last night that he was making a mistake, as I was at home and had not heard an angry word. Some meanly had done this."

RANTON AND HIS CRITICS.

Says the Ontario has Again Misrepresented Him—A Powerful Sermon.

In his introductory remarks at Bridge St. church last evening Rev. A. H. Ranton said he did not want to introduce anything that would detract from the spirituality of the meeting, but in its last evening edition the Ontario had again misrepresented him. The article was either erroneous or false. It said Mr. Flint was not given an opportunity to speak at last evening's meeting, which was false, as those present knew.

Referring to Fred Adams' letter he said it was too nasty to refer to. He was sorry that the young man was not more refined. He complimented Mr. Flint on the fairness of his remarks in the Sun.

He agreed with His Worship the Mayor in all he had said in his letter in the Intelligencer. Perhaps some of his remarks in his sermon Sunday morning would have been better unaided. He never wrote out his sermons and the words came to him in the course of his address and he used them, but he would never use them again. He and the Mayor were in an exactly similar position. They were both being brought to task for reading letters in their possession.

He quoted from the Criminal Code regarding the posting of obscene pictures or literature. With due respect for the Mayor and Mr. Flint, he thought Belleville could at least do as Peterborough had done—cover up these objectionable pictures.

His text was "Is this heart right?" from Kings 10-15. The Great Physician knows whether the heart is right or not. If man's heart was right his life would be right. An unrepentant heart was not right, a pre-contrite heart was not right; a hard, unrepentant heart was not right. A repentant heart was right in the sight of God, but remorse was not repentance, which meant to quit that which the individual knew was wrong. A believing heart was right in the sight of God. By a believing heart he did not mean a believing head.

It was announced that in all probability tonight would conclude Rev. Ranton's meetings here.

During the service Rev. F. B. Stafford and his brother, Rev. Mr. Stafford, of Quebec, sang two duets.

A Pretty Little Suit,
And for very little money, is a line the Oak Hall has just received. They are for boys and young men. Made of brown mixed tweed, double breasted and a large sailor collar. This line of suits will sell, as the price is so very low. Usually it is not much trouble to get a nice made suit for \$4 and \$5, but we had trouble sometimes in getting them made to suit us at \$2.50. We have a good thing this time.

SPORTING NEWS.
THE WHEEL.
Two weeks from tomorrow the annual meeting of the Canadian Wheelmen's Association will be held at Toronto, and will be settled who shall rule the destinies of the big Association for another year, and secondly where the annual meet will be held.

There are two applicants for the meet—Peterborough and Ottawa. Belleville wheelmen will go solid for Peterborough, and following are a few of their reasons for so doing:

In the first place the Plain Glass City has done more to foster amateur athletics than any town between Montreal and Toronto. The town has always been foremost in lacrosse, hockey and wheeling.

Secondly, they have there one of the fastest tracks in the Dominion, and proven by Coulter's fast mile over it in 1895.

Thirdly, the town is centrally located and has splendid railway connection.

Fourth, Peterborough has been the unsuccessful candidate for the meet on two previous occasions, and its wheelmen displayed splendid fighting powers on those occasions, but when defeated showed no animosity, but turned in and were faithful supporters of their more fortunate rivals.

These are only a few of the many reasons why Peterborough should get the meet for 1898.

Not Much Change.
There is scarcely any change in the standard wheel shoe for the season. Medium pointed toes will still be the most popular, and the moderate cone toe will follow next. Fancy cloth tops both in leather and Oiled shoes will be very much in demand. Tan colored and chocolate laid back to be more worn than over—HAINES & LOCKETT.

Military Notes.
Lieut. Conger, who has been out of town for a few days, has returned to the city.

The 57th, of Peterborough, will commence their annual drill next week. They are considering invitations from the different cities for the 24th of May and Dominion Day.

Col. Ponton said this morning that the 15th would not go out of the city on the 24th of May if the Council would invite some other battalion to Belleville. This city should have a demonstration on the Queen's birthday.

Lieut. W. S. Morden will lecture at the armory on Friday evening on "International Military Law" and will also read the "Queen's Jubilee" on the evening of April 24th and will illustrate it with several views taken of rivers taken by himself at the scene of the great demonstration.

VOL. 31.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

BELLEVILLE ONTARIO, FRIDAY, MARCH 25, 1898.

HIS LAST MEETING.

HAD A HOT TIME.

Appreciation Expressed for Mr. Ranton's Services.

Rev. A. H. Ranton preached the last of his series of sermons in Bridge at church last evening and to the largest audience that listened to him during his stay in Belleville. The seats were all filled and hundreds stood up throughout the whole service.

Before the preaching service opened Rev. Mr. McIntyre read a resolution, which was as follows:

Moved by the Rev. Dr. Cade, seconded by Rev. J. H. Rice, that the last of the series of evangelistic services conducted by Rev. A. H. Ranton from the 27th of February to the 24th of March, this is a most successful and profitable series of meetings, the population of this city and of its various churches and classes, express its gratitude to God for having in His providence lent the Rev. Mr. Ranton to this city; for having through his Holy Spirit helped him to so successfully conduct this series of meetings; and have been persuaded to give up lives of sin and accept Jesus Christ as their Lord and Master; for enabling Mr. Ranton, with the "boldness of speech" which characterized the Apostles, to divide unflinchingly the lines of demarcation between the church and the world, and for aiding him in his fearless and timely denunciation of forms of evil prevalent in our city.

Rev. Dr. Cade, in moving the resolution, said he had attended nearly all the services and had found very little to criticize. Mr. Ranton had been a most successful speaker, and so had the Apostles and Christ given hard knocks during his ministry. Mr. Ranton was divinely gifted and all would hope to see him succeed.

In seconding the resolution, Rev. J. H. Rice endorsed all that Dr. Cade had said. He said it took hard knocks to awaken many sinners and half-dead Christians to a sense of their danger. He was glad the hard knocks had been given the prevailing forms of error and he felt confident that it was this that so greatly stirred the community.

Rev. Newton Hill said he admired Mr. Ranton because his doctrine was sound and he had profound respect for his ministry. He hoped he would long be spared to preach his good words.

Rev. V. H. Cowart said he felt like shouting "Amen" to the remarks that had been made in good old Methodist fashion, but he might not say so in the future. He was in sympathy with Mr. Ranton, and he admired him for the enemies he had made. While he did not agree with all that had been said, he believed the result of the meetings would be good if the ministers followed them up.

Rev. Mr. McIntyre wished to add his testimony to what Mr. Ranton had done. He said he had been a member of the church for many years and he was proud to say that he was a member of the church. He said he was a member of the church and he was proud to say that he was a member of the church.

The resolution was put and carried by a standing vote.

Mr. Ranton was visibly moved when he arose to thank both ministers and people for their kindness. He said he greatly appreciated all that had been said. He said he had not had the opportunity to say so much as he would have liked to. He said he had not had the opportunity to say so much as he would have liked to.

He then proceeded to read briefly from an article that appeared in the Ontario last evening. He was accused of being "a fancy preacher." Well this was a day of fancy preachers. He said he was a day of fancy preachers. He said he was a day of fancy preachers.

Officer Morton's Adventure in the Township of Elzevir.

Jeremiah Vannor left his brother's farm last fall without paying the rent, at the same time removing all the cattle. He has been summoned on several occasions to appear before the Magistrate, but he paid no attention and finally a warrant was sworn out for his arrest. Officer Morton and Constables Duffin, of Plainfield, and Wilson, of Toward, went out to Johnston's Corners, in Elzevir, on Wednesday to arrest Jeremiah.

They arrived at the house late in the evening and found Jerry inside, but there their troubles only began. When he learned that he was wanted he climbed to the attic and, armed with a heavy piece of iron, defied arrest. The officers tried to throw an empty barrel down upon him from the window of the law. A bright idea struck Officer Morton, and putting the barrel over his shoulder he proceeded to climb towards the attic, when Jerry got a sight of the barrel down came the iron and the barrel fell into staves about the officer's head.

The burglars then drew off to a safe distance and kept a close watch till daylight, when they prevailed upon Vannor to give himself up. He was brought to the city yesterday afternoon and lodged in jail. He will be tried on Monday next.

Magistrate Flint's Court.

A BAD INDIAN.

Andrew Culbertson, an Indian, who has been serving some time in the goal for drunkenness, was released a day or two ago and he went back in "the same old way." He seemed like a "good" yesterday and when Officer Hayter tried to arrest him he resisted. He was landed in the coop and this morning was fined \$5 for the trouble he gave the officer, but Arnold did not appear against him and he was dismissed on the other charge.

Mining Notes.

Mr. D. E. K. Stewart, of Madoc, has sold a three-fourths interest in the "Diamond" gold mine, near Queensboro, which is said to be very rich, to an Ottawa syndicate.

The Madoc Review says:—"Mr. W. A. Hungerford erected and has been operating a smelter near Millbridge for some months, treating all kinds of North Hastings ores, which has been giving very great satisfaction. We have been shown samples of the matte produced, and also the mineral water manufactured out of the slag, and there can be no doubt but that this smelter will be of great advantage to that section of North Hastings. Mr. Hungerford's smelter will be in full operation by the 1st of April, and it is expected that it will be a great success. The smelter in Madoc will be erected to do custom work, and if the above Company does not care to undertake it another Company that Mr. Hungerford is interested in will put it up. This is what has been wanted in Madoc for years.

Going to the Klondike.

Sergeant A. McIntosh, Hospital Sergeant of the 1st Field Battery and the Royal Military College, Kingston, has received his appointment to a similar position with the contingent that leaves Ottawa about April 25th for the Klondike. He is a very capable man and has been chosen for the position. He is a very capable man and has been chosen for the position.

"The White Crook."

Ed. Rush's "White Crook" played at the opera house last evening to a fair audience and gave much satisfaction. The choruses were good and there was nothing in the whole performance that the most fastidious person could take exception to. Kennedy and Nestor took the palm with a laugh. The "White Crook" was a very successful performance.

Made a Good Haul.

Saginaw, Mich., March 23.—Judge Snow sentenced Rev. Orson D. Taylor to Jackson Penitentiary for six years. He was convicted of swindling a large number of persons in connection with an imaginary tour site, securing all together about \$300,000.

Two Warnings.

Loosing flesh is one and lacking courage is another. If they come together the warning is a loud and hard one. Scott's Emulsion does some of its best work in just these cases. It prevents consumption.

Four Licenses off.

Some of the hotel keepers of the city are living these days in fear and trembling, for when the next licenses are granted four will be cut off. The amendments to the Licenses Act in 1897 make it imperative on the Commissioners to cut off four this year and four next year. Belleville can easily get along with eight less hotels.

DIED IN ROCHESTER.

Harry Robinson Succumbs to an Attack of Brain Fever.

Harry Robinson died in Rochester two o'clock yesterday afternoon. Such was the intelligence that reached this city last evening. He was ill just eleven days with brain fever. He was almost blind from the first attack and suffered terribly. His mother and his uncle, Mr. W. B. Robinson of this city, were with him when he died and arrived in the city with the remains on the 12:10 train today.

Deceased, who was a son of Mr. Isaac Robinson, of the third concession of Thurlow, was about twenty-one years of age. He came to Belleville about four years ago and entered the employ of Haines & Lockett, where he remained about a year ago, and lately had been employed in the Eastman Kodak works.

He was well known in Belleville, especially among the young men, with whom he was a prime favorite. His family have the sympathy, not only of his many friends in the city, but of the whole neighborhood in which they reside.

His death was a great loss to the community. He was a very capable man and had been a great help to his family. He was a very capable man and had been a great help to his family.

TEST WAS SATISFACTORY.

And Now There is No Doubt as to the Future of North Hastings.

For some time past the people in this vicinity have been anxiously awaiting the result of the test, for which Mr. James, owner of the Flint gold mine at Actinolite, four miles north of here, has been making preparations. The owner of the property submitted to his assistance one of the ablest geologists and mining experts on the continent, under whose supervision the furnace was erected and the experiment made. The test was made last week and proved, according to the statement of Mr. James himself, most satisfactory. In fact it far surpassed his expectations. He has succeeded in separating both the red and chemically pure white arsenic from the rock, samples of which he showed the News yesterday. This is the first time that red arsenic has ever been taken from the ore in Hastings county. The question as to the possibility of mining in Hastings county as a profit is now settled beyond all doubt. Tests are still being made, the furnaces being kept running night and day.

The News has maintained for years that Elzevir township has a rich arsenical ore as were to be found anywhere in Hastings county and now the proof of this statement is assured beyond all doubt. There are other properties in the vicinity of Bridgeville, which are also rich in arsenic, and it is expected that they will be of great value to the community.

Mr. James and the owners of these properties will do well to hold them until they can get a fair price for them. The furnace used for this test were manufactured at the foundry and machine shops of Wm. Garret & Sons, Tweed—Tweed News.

TEST WAS SATISFACTORY.

And Now There is No Doubt as to the Future of North Hastings.

For some time past the people in this vicinity have been anxiously awaiting the result of the test, for which Mr. James, owner of the Flint gold mine at Actinolite, four miles north of here, has been making preparations. The owner of the property submitted to his assistance one of the ablest geologists and mining experts on the continent, under whose supervision the furnace was erected

at the East End Abattoir to day. The others are being sold in large numbers and trade was good, with prices paid for all good cattle but still not very satisfactory for the cattle people. The ranchmen were sold at 45c per lb. and the other good animals were sold at 42c per lb. pretty good animals sold at from 38c to 40c per lb. and a few inferior ones sold at from 25c to 35c per lb. Cows were very plentiful and sold at from \$1 to \$8 each and \$12 was asked for an extra one. Bulls and sheep sold at from 25c to 40c per lb. and the calves at from 25c to 35c per lb. and the spring lambs at from 25c to 40c per lb. But some of the lambs were rather young for proper feed and hence are very plentiful, and sold for as much as 10c per lb. for hogs just out of the pens.

East Buffalo Live Stock.

East Buffalo, N.Y., March 21.—Cattle—Receipts about three cars. Market fairly steady. Good animals are being sold. The value and cattle, however, 30 head. The market was barely steady, with best top market at \$6.25 to \$6.50, a number of good

passed out. The market for the calves was, is anxious, pitious about the calves. "You can't find Santa Claus, manna, can you?"

A look of pain came into the mother's face, and she said, as she replied consolingly:

"Yes! Be a good girl now, and I'll find him presently."

Whether the gay avenue she turned, with her smiling, disappointed little one, going to find Santa Claus, and to make good the transient spirit of the expectant child. But I know that mother's heart ached bitterly beneath her thin, faded cloak, at the pitiful cry of her offspring, Poor woman!

With her loving mother's heart and empty purse! Poor, weal, woful child!

Ah! there are many such in this city. Parents to whom the approaching glad Christmas tide will bring neither good cheer nor joy, in any shape or form, and children to whom Santa Claus—if they

After coughs and colds the germs of consumption often gain a foothold.

Scott's Emulsion of Cod-liver Oil with Hypophosphites will not cure every case; but, if taken in time, it will cure many.

Even when the disease is farther advanced, some remarkable cures are effected.

In the most advanced stages it prolongs life, and makes the days far more comfortable. Everyone suffering from consumption needs this food tonic.

So Doctors Said Concerning Richard B. Collins—He Spent Months in Toronto to Hospital Without Any Benefit.
The Echo, Toronto, Ont. The Echo presents to its readers the following plain statement of fact, which is a simple comment that a medicine that can perform so remarkable a cure is invaluable and it is no wonder that the aggregate of its sales throughout the country is enormous.

THE AGONY OF SCIATICA.
Mr. Ronald McCormack, of St. George, P. E. I., an influential, well-to-do farmer, writes: "After the birth of my first child I was in poor health and unable to recover my strength. I had a severe pain in my left side and leg, which almost made it impossible for me to breathe. I had a bad cough day and night, and was troubled with night sweats, and on awakening found myself very weak. My complexion was sallow, and my appetite entirely gone. All my friends advised me to take Dr. Williams' Pink Pills for Pale People. I bought a box, and before they were all gone found myself better. I continued to take them, and before long I was able to do my usual work. I am now in good health, and my appetite is good. I am a great believer in Dr. Williams' Pink Pills for Pale People."

THE GRAND TRUNK.
The Annual Report Shows Increasing Earnings—Terms of the Wabash Agreement—The Management Is Praised. The Grand Trunk Railway Company, which has been operating since 1854, has just published its annual report. The report shows that the company has had a very successful year, with its earnings increasing by 10 per cent. over the previous year.

THE HOUSE OF COMMONS.
Franchise Bill Was Further Debated After the Routine Proceedings Had Been Disposed Of. The House of Commons, March 26.—The debate on the Franchise Bill, which was introduced on March 25, continued today. The bill, which was introduced on March 25, was a proposal to extend the franchise to a larger number of men.

A Depressing Season.
Winter is the most trying Season of the year, so far as health is concerned. Confinement indoors and over-heated and impure air makes even ordinarily strong people feel dull, languid, "out of sorts" and generally run down. What you need is a tonic to aid nature in regaining lost energy. April is the month of all months when atonic is of most service.

DR WILLIAMS' PINK PILLS
is the greatest of all tonic medicines. Through their use ailing, tired and depressed men, women and children are made bright, active and strong. But You Must Get the Genuine. Do not let any dealer persuade you to take something which he says is "just the same as," or "just as good as" Dr. Williams' Pink Pills. All imitations are worthless—many of them dangerous to health. The genuine pills are put up in boxes, the wrapper around which bears the full trade mark "Dr. Williams' Pink Pills for Pale People," printed with red ink on white paper. Inside the wrapper will be found Dr. Williams' directions for use.

Publicly Deny That They are Meddling in Canadian Politics. Editor Citizen, Sir.—We observe with regret that gentleman in public station are studiously giving the impression that we are seeking to influence "politics" in Canada, using that term in its narrow sense. Nothing could be further from the truth.

THE SENSITIVE

Its Work in Drummond Railway Matter Good for the Country.

Mr. Walworth, Assistant General Manager of the Grand Trunk, gave important testimony before the Railway Committee yesterday, and justified the existence of the Upper Chamber. Better Terms Made Because of the Senate's Action.

Ottawa, March 25.—It transpired at the meeting of the Drummond County Railway Committee yesterday, that the existence of the Upper Chamber of the Senate is the reason why the Grand Trunk Railway Company has been able to obtain better terms for the purchase of the line than it would have been able to obtain if the Senate had not been created.

The Director of Five Years Ago. Mr. Walworth, then, at Mr. Blair's instance, told of the deal between the Grand Trunk and the Drummond County Railway Company for the purchase of the line for a traffic arrangement whereby the Grand Trunk would run the road, and allow the Drummond County Railway to operate it with a further sum of money.

Mr. Blair asked him what he thought of the bargain.

Of course Mr. Walworth could not praise it too highly. The Drummond County Railway, he said, was a cheap line by which the Intercolonial could get to Montreal.

On cross-examination it was brought to Mr. Walworth's attention that the returned captain of the Beaufort was a member of the committee.

Mr. Walworth did not know of Mr. Haggart's visit to Mr. Sargent, of the Grand Trunk, in regard to an arrangement to have the I.C.R. extended to Montreal, but he did remember the fact of Mr. Sargent's "a certain conversation" with Mr. Sargent.

Mr. Sargent, he said, was a member of the committee.

Mr. Schreiber was called and examined by Mr. Powell, who would like to know how Mr. Schreiber would like to make the sale of the Drummond only on the basis of the subsidy contract, when the road had already been built so as to earn the subsidy.

A "Bluff" Protest.

To the Editor of the INTELLIGENCER.

MADOC, March 29, '98.

Sir,—Word has been received here that a protest has been entered in Toronto against the return of Mr. W. J. Allen, M.P.E., for North Hastings.

The friends of Mr. Allen and the Conservative party generally need not be alarmed for the result, if it should be pushed to a conclusion, which is doubtful.

That it is a sham at the back of the Toronto managers is without a doubt.

What will they have to prove in order to win the election? In the language of the statutes that the corrupt practices, if any, did affect the result of the election. Not did affect the result of the election. Here believe that the truth is the election by the Conservatives was free from any attempt at corrupt practices of any kind.

In the language of Mr. Haycock, ex-M.P.E. of Frontenac, the Grits had enough voters, that's all. Of course there has been no hawking about of lists to get subscriptions for the fund.

No one went to Toronto to confer with the Grits to make up the fund. The fund could be raised, and of course everybody believes that Mr. Byron O. Laidlaw, of Hamilton, and Mr. Wm. Kelly, of Markham, the active parties in this protest matter, put up the money.

People united up, however, to hint that nobody there was there is nothing to be said about the fund.

In the meantime, with six months in which to take active legal proceedings, we shall see what we shall see. There has been a hope of amusement over Mr. Wm. Kelly's letter from Deseronto. How dignified he is! How far he is from even the semblance of undue influence! How can these vulgar Tories even in thought suspect him! And yet—well, notwithstanding this, Mr. Allen, upon whom there does not seem to be a suspicion of wrongdoing, will take his seat in the Legislature.

Yours, &c., A CONSERVATIVE.

CHEESE-MAKING.

An Instructive Article by Professor Robertson.

METHODS OF CURING—ADVICE ON THE IMPROVEMENT OF CURING ROOMS—CONSTRUCTION OF FACTORIES.

Free Building Plans to be Had on Application—Suggestions for Cooling and Heating the Curing Rooms—The Dissemination of Heat and Proper Flooring Discussed.

The following highly important article is published at the suggestion of Mr. Hugh Howie, Cheese Instructor:

Flavor and body are the two qualities which determine the relative market price of cheese. They are the two qualities by which it is judged by the consumers. The character of these qualities in Cheddar cheese is largely determined by the process of curing.

There is still some doubt as to what is the agent which causes the curing of cheese, and thus makes the curd partly soluble and the body of the cheese rich and plastic. While the nature of the agent is still a matter of speculation rather than of exact knowledge, the conditions under which the curing can be carried on successfully are fairly well understood. So far as curing develops the flavor of cheese the agents in that change are doubtless minute forms of life known under the name of bacteria. The temperature at which the cheeses are kept affects the action of these minute forms of life, and through that determines the flavor, the texture, the body and taste which are produced in the cheese. The manufacturing and commercial work carried on at factories agrees with the limited amount of experimental investigation in showing that a fairly steady temperature, between 60 and 65 degrees Fahrenheit, gives the best results. At that temperature loss in weight by the shrinkage of the cheese is also considerably less than at higher point. A dry atmosphere causes the cheese to lose in weight by the evaporation of the moisture and may also cause small cracks or cracks on the surface, particularly when the cheese is new.

The curing rooms at the cheese factories in Canada are generally fairly in construction, and it is very difficult, if not wholly impracticable, to regulate the temperature in them at 60 degrees or thereabouts. Irregularity of temperature causes many of the faults which are complained of by the cheese buyers, and also by the cheese makers in Great Britain. If the temperature goes down to below 50 degrees the cheese buyers complain of bitterness in the flavor. If the temperature goes as high as 70 degrees or over, the cheese buyers complain of a heated flavor, or, worse still, of a condition which is called "off flavor."

CURING ROOM METHODS.

All the methods of managing the curing room have been too much after the following fashion:

(1) In the spring of the year a stove is used to heat the room, the stove is not covered and placed in such a way as to cause a circulation of air; the cheeses in the room are covered with a cloth, and the heat of the stove is so regulated that the room is kept at a temperature of 60 degrees.

(2) In the warm weather of summer the cheese maker opens the windows and sometimes the door of the curing room at night, so that the room is cooled down to 60 degrees.

(3) In the cool weather of autumn a stove is generally used in the curing room, without any provision being made for causing heated air to circulate evenly through every part of the room. Consequently the cheeses on the shelves near the stove are often kept at a temperature of 80 degrees, while the cheeses in the parts remote from the stove are perhaps at a temperature of 50 degrees.

All these deficiencies and defects in the construction and the condition of the curing room should be remedied so as to prevent the cheese to be kept at a steady temperature in the curing room, not too dry. The upper story of a cheese factory is not suitable for a curing room in warm weather.

The curing room should be practically an insulated room, so constructed that its outside temperature need not necessarily affect its contents. For this reason insulation is of great importance. Where the floor and ceiling of the room in such a way that heat will go through them readily. For the storage of butter the walls of the room should be so insulated that the temperature inside will not be more than 84 degrees, even when it is as high as 96 degrees in the outside air. It is in the curing room that the cheese-curing room should be so thorough, but it should be sufficient to permit the temperature to be kept at or near 60 degrees.

Full plans for the construction of a cheese factory building have been prepared and copies will be furnished free to those who may be intending to construct or improve such buildings. Where the curing room is to be a wooden structure, it should be put on a solid stone foundation.

A large number of curing rooms have been built in Canada, and the plans for these tend to be of the same pattern. That tends itself in a most provoking and fantastic way to getting jammed with holes which lie either hot or cold air, according to the construction of the room. The walls are either built of brick, stone or concrete, and should be made of a material which is cheap, durable and makes a satisfactory insulating material, when used with building paper and proper plaster.

It is suggested that the floor should be of a thickness of lumber, with two ply of oil-soluble building paper between them. (Continued on fourth page.)

NON-JURY SITTINGS.

Several Cases Already Disposed of by the Court.

Hor. Mr. Justice McMahon goes at his duties quietly on the bench, but he makes the actions fairly fly when they come before him. Already five cases have been disposed and the sixth is well under way.

Campbell vs. Bathman Co. The Judge dismissed the case without hearing evidence. McMahon and Porter for plaintiff; Bell & Biggar for defendants.

Caul vs. Trudo.—This was an action to settle an account of dealings between Piffle and defendant. Consent judgment entered, with reference to the Local Master, W. P. Mahon, E. G. Porter and E. J. Butler, for plaintiff; C. W. Craig and W. B. Morley, for defendant.

Waller vs. Carnow.—This was an action brought by the plaintiff, who is the agent for a block on Bridge st. in which W. Carnow has an office, to dispossess him. Carnow claims plaintiff did not live up to the terms of the lease in not giving him the monthly notice, as stipulated. Judgment reserved. Northrup & Roberts for plaintiff; Porter & Farnham for defendant.

Tabbitt vs. McMahon.—This was an action to set aside certain conveyances made by Mrs. Ridley, now Mrs. Rabbitt, to W. P. McMahon. Referred to the Master, all conveyances to be subject to the ruling of Northrup & Roberts for plaintiff. W. P. McMahon, E. G. Porter and E. J. Butler for defendant.

McDavid vs. McDavid.—This case was settled without coming into court. F. S. Wallbridge for plaintiff; W. P. McMahon, E. G. Porter and E. J. Butler for defendant.

Cassidy vs. Cassidy.—This was an action brought by John Cassidy, sr., against John Cassidy, jr., to recover his farm, which he had deeded to his son on the agreement that the father and his wife were to have their living off the farm. Plaintiff contends that he has not been properly supported, and asks the deed to be declared null and void. The case was in progress this afternoon. W. P. McMahon, E. G. Porter and E. J. Butler for plaintiff; C. W. Craig and N. S. Morden for defendant.

OBITUARY.

JOHN HILL.

Our Shanownville correspondent writes under date of March 27th: John Hill, son of Matthew Hill, died this morning at his father's residence after an illness of several months. About two years ago, he went to the North West, and there his health failed him. Thinking to prolong his life, he sought a milder climate, Southern California, but it was of no avail. In company with a young gentleman friend he started for home March 22nd, and arrived on the 28th very much fatigued, although every comfort was provided, as he traveled in a Pullman car. Notwithstanding his great fatigue, he was awaiting him at the carriage depot. John was of a genial disposition and highly respected by every one who knew him. He had won many friends wherever he went. He lived a Christian life and was ready to die. He carried a life insurance in the Canadian Order of Foresters. His father and family have the sympathy of all in their deep bereavement. The funeral will leave his father's residence on Wednesday, 10 o'clock a.m., and proceed to the Presbyterian church, Shanownville, where to the cemetery.

Not Much Change.

There is scarcely any change in the styles of ladies' shoes for this season. Medium pointed toes will still be the most popular, and the moderate heel will also be in vogue. Fancy cloth shoes, both in lace boots and Oxford shoes will be very much in demand. Tan colored and chocolate hid fair to be more worn than ever. HAINES & LOCKETT.

"Uncle Tom" at Toronto.

The well-known story of "Uncle Tom's Cabin" was told at the Toronto Opera House last evening in good style to a large audience. The piece is somewhat revised, and is a very clever and clever specialty between the acts. Miss Clara Vance rendered a number of popular songs in a sweet way, and between Acts 2 and 3 there is a comedy sketch, which caused prolonged merriment, while between Acts 3 and 4, Mr. and Mrs. Joe Davis rendered well-known negro songs, introducing also the famous song, "Swing Low, Sweet Chariot." At the opera house to-night; see advertisement.

Light Overcoats for \$5.

The Oak Hall has a very pretty light overcoat for \$5. Not a common looking coat by any means, but something that looks well and will wear well. There are plenty of men who cannot afford to pay even \$10 for a light coat, and we think we have the coat that will please. Only \$5 for a nice light overcoat.

No Writ Yet.

Up to noon to-day Mayor Johnson had heard nothing of the threatened proceedings by W. H. Pearson, Jr. He is of the opinion that there has been a "bluff" on the part of the plaintiff. The letter he has put on the table, and he is of the opinion that the Executive Committee of the Council this week and then the public will be able to judge whether it is genuine or otherwise.

Mr. Tarte's Newspaper States That They are the Irish People. A Patriotic of Montreal, the "Tario Green-shielders organ, discusses William Robertson's proposition for a coalition between France and Ireland, as follows: "We believe it to be our duty to put the newspapers in France on their guard against the Irish element and its tendencies, especially in the United States. The Irish, in their clergy, as well as in their politics, are the worst enemies of our beautiful French language, and our national influence in the American Republic, and it is probably the same elsewhere."

(Continued from first page.)

Walls should be constructed with two thicknesses of lumber, with two ply of paper between them, on the inside of the ceiling should be constructed with at least two thicknesses of corkboard, and the whole inside should be thoroughly cleaned by a liberal use of kerosene.

For the improvement of an old curing room, the following method may be adopted with good results. The whole inside should be thoroughly cleaned by a liberal use of kerosene. The walls should be washed with fresh-slacked lime. It should then be disinfected by washing with hot water, to which one pound of carbolic acid has been added. To make the old floor clean it will usually be necessary to put two thicknesses of building paper on it, and a new floor closely laid on top of the paper. If the inside walls of the old curing room are of lumber, two thicknesses of paper should be put on, and dressed on at least one side. The ceiling should be made close, and made close, and double doors and windows should be put on for use in summer as well as during the late autumn and winter. A coating of whitewash should be applied to the walls.

These improvements in a curing room will save 25 per cent profit, and labor, according to the condition of the room and the price of lumber, labor, etc., in the locality.

Banish the Monster.

Dyspepsia One of the Most Terrible Evils of Modern Civilization.

Paine's Celery Compound is the Only Medicine that Works a Sure and Permanent Cure.

A YOUNG LADY GIVEN NEW LIFE AND STRENGTH AFTER FIFTEEN YEARS OF SUFFERING.

SHE SAYS:
"I AM ASTONISHED AT THE RESULT, AS MY TROUBLE WAS AN OLD AND CHRONIC ONE."

The man or woman who does not use Paine's Celery Compound to banish the tortures and miseries of dyspepsia and indigestion at this season is certainly destined to go into the summer months a nervous, weakened, despondent and miserable wreck.

The calling bloods of dyspepsia reduce nerve force and power, promote heart difficulties, and the blood becomes stagnant and impure. Paine's Celery Compound works speedily a sure and permanent cure, builds up the body, and gives a store of health and strength that makes living a pleasure.

MISS LIZZIE MUIR says:
"I have used it for a long time, and I can say that it has done me more good than any other medicine I have ever used."

DEAR SIR:—For the benefit of sufferers I gladly give my experience with Paine's Celery Compound. After suffering from dyspepsia for fifteen years, and using many different remedies, I have decided to use Paine's Celery Compound, having heard of so many cures by its use.

The Compound, after I had used it for a time, produced marvellous results and banished all my troubles. From a condition of helplessness—being unable to sleep or eat—I now feel well and strong. I am astonished at the result, as my trouble was an old and chronic one.

Yours faithfully,
LIZZIE MUIR, Queen, P. Q.

THE BLESSING OF THE AGE.
HAMILTON, Aug. 10, 1896.

Mr. S. S. Ryckman,
Hamilton, Ont.

DEAR SIR:—I take great pleasure in giving you a statement regarding my case of Rheumatism with which I was afflicted for over thirty years. The pain had gradually approached my breast and affected me so that I could not sleep on my left side.

Another trouble I had was a kind of Dyspepsia, known as Gastric Indigestion, from which I suffered considerably. I had to be very careful as to what I ate, and I paid the penalty. At present, since taking your valuable remedy, known as "Kootenay Cure," I am able to eat my meals without any aid except a small amount of milk.

In addition let me add that my Rheumatism was so bad at times that I could not move myself. I am now the same old man and conscientiously recommend your medicine, "Kootenay Cure," to anyone suffering from Rheumatism or Gouty Trouble. I can gladly have found the Remedy and willingly furnish you with this information that it may help others who are similarly afflicted.

Wishing you success, I remain,
Yours truly,
(Signed) GEORGE DRAIN.

GREAT BRITAIN'S EASTERN POLICY.

A Ministerial Statement to Be Given Before Easter.

The Russian Flag Hoisted—Chinese Garrison Withdrawn From Port Arthur and Tientsin—British Fleet Ordered to Remain in the Gulf of Changhai—China Admits That She is Powerless to Resist the Russian Demands.

London, March 29.—In the House of Commons yesterday Mr. A. J. Balfour, First Lord of the Treasury, explained Sir William Vernon Harcourt's, the Liberal leader in the House, promised a Ministerial statement on the situation in the far East before Easter.

The Globe (Can.) says the progress of affairs in the East is becoming more acute. Unless it is found that the Government has secured some tangible advantage, it will not be able to support its position. It is reported, however, from the best quarters that the apparent diplomatic defeat of Great Britain makes a move of the greatest importance, which will give Great Britain a favorable position.

Britain's Intentions.
A statement has been obtained in a confidential source respecting British intentions in China. In view of the naval movements in the far East, it is stated that Great Britain is to obtain equal advantages with the other powers, and secure adequate compensation in her own interests. This explains the British naval activity at Hong-Kong and elsewhere. Therefore, a movement upon the part of Great Britain may be anticipated in the future.

The Russian Flag Hoisted.
The Chinese Withdrawal From Port Arthur and Tientsin—With Above Result.

Peking, March 29.—The Chinese garrison was withdrawn yesterday from Port Arthur and Tientsin. The Russians landed, and the Russian flag was hoisted at both places.

London, March 29.—The Daily News says it understands that after Friday's Cabinet Council meeting, the British position in the East is becoming more acute. Unless it is found that the Government has secured some tangible advantage, it will not be able to support its position. It is reported, however, from the best quarters that the apparent diplomatic defeat of Great Britain makes a move of the greatest importance, which will give Great Britain a favorable position.

Peking, March 29.—The Chinese garrison was withdrawn yesterday from Port Arthur and Tientsin. The Russians landed, and the Russian flag was hoisted at both places.

Where England Stands.
London, March 29.—The Daily News says it understands that after Friday's Cabinet Council meeting, the British position in the East is becoming more acute. Unless it is found that the Government has secured some tangible advantage, it will not be able to support its position. It is reported, however, from the best quarters that the apparent diplomatic defeat of Great Britain makes a move of the greatest importance, which will give Great Britain a favorable position.

GREAT BRITAIN'S EASTERN POLICY.

A Ministerial Statement to Be Given Before Easter.

The Russian Flag Hoisted—Chinese Garrison Withdrawn From Port Arthur and Tientsin—British Fleet Ordered to Remain in the Gulf of Changhai—China Admits That She is Powerless to Resist the Russian Demands.

London, March 29.—In the House of Commons yesterday Mr. A. J. Balfour, First Lord of the Treasury, explained Sir William Vernon Harcourt's, the Liberal leader in the House, promised a Ministerial statement on the situation in the far East before Easter.

The Globe (Can.) says the progress of affairs in the East is becoming more acute. Unless it is found that the Government has secured some tangible advantage, it will not be able to support its position. It is reported, however, from the best quarters that the apparent diplomatic defeat of Great Britain makes a move of the greatest importance, which will give Great Britain a favorable position.

Britain's Intentions.
A statement has been obtained in a confidential source respecting British intentions in China. In view of the naval movements in the far East, it is stated that Great Britain is to obtain equal advantages with the other powers, and secure adequate compensation in her own interests. This explains the British naval activity at Hong-Kong and elsewhere. Therefore, a movement upon the part of Great Britain may be anticipated in the future.

(Special to the INTELLIGENCER.)

Toronto, March 31.—Petitions will be

filed this afternoon against the return of

Craig, Liberal member-elect for East

Wellington; Bowman, Liberal member-

elect for North Bruce; and Hon. E. J.

Davies, Provincial Secretary and Liberal

member-elect for North York. This

The Purchase of La Patrie.

(Montreal Star.)

Mr. Tarte made one little mistake when

he made that impulsive and frank state-

ment in the House of Commons about the

purchase of La Patrie.

Before saying anything at all about such

a delicate subject, he should have con-
sulted his solicitor.

Mr. Greenhills' statement is an ever

so much better explanation than Mr.

Tarte's, and if it does not quite agree with

his client's, why it is not the first time that

lawyer and client have disagreed.

Mr. Tarte's explanation, according to

Hansard, was as follows:

"Mr. Greenhills had a cheque in his

hands, not of his own money, but of the

money of the party, and he paid that

cheque."

Mr. Greenhills' explanation is that

Mr. Tarte gave him \$5,000 in cash that

afternoon (i. e., the afternoon when the

paper was purchased), and that the fol-

lowing morning Mr. Tarte's sons gave him

\$5,000 in bills and a cheque for \$10,000

on the Cheolgas Bank.

Mr. Tarte says the money came from

Mr. Greenhills; Mr. Greenhills says

the money came from the Messrs. Tarte.

No doubt the honorable gentleman and

the learned gentleman are both telling the

truth, but nothing less than an impartial

and unbiased Parliamentary investigation

like that now going on can make the affair

intelligible to the public mind.

How both these gentlemen must have

wondered where the money came from

when they came to compare notes!

When Robinson Orscoe saw that foot-

print in the sand, he first of all suspected

a visitor, then he thought the mark was

his own, and when he found that footprint

a misfit for his number eleven, he thought

it had been made by the devil.

Tarte thought Greenhills put up the

money out of the party funds. Green-

hills thought Tarte got it out of La

Citaveur's petty cash. Now the question

is, do they both suspect diabolic

agency or a fairy godmother. If neither,

where the devil did the money come from?

RETURNED FROM SKAGWAY

Mr. S. S. Moore, Another of the
Klondike Party, Returns.

We announced in these columns a few

days since that Mr. S. S. Moore, one of

the Klondike party, was on his way home,

having been compelled to return owing to

illness. He got home at 9 o'clock this

morning, from Iktan, having come down

that far on the C.P.R.

Mr. Moore was much fatigued after his

long journey and could not be seen when a

reporter called at his house on Charles st.

at noon. From Mrs. Moore we learned

that her husband had been taken ill at

Summit Lake, on the pass from Skagway

to Lake Bennett, and returned to Skagway

about the 13th inst. He consulted a

physician there and was told that he had

over-exerted himself and that his heart was

affected. After staying there until the

20th and getting no better, he left for

home, making the trip in ten days.

Mr. Moore left the rest of the party well

satisfied about money. They had got

over the pass when he left them, but they

had still many hardships to encounter. He

says he carried 100 lbs. most of the time he

was going up the pass. He thinks with a

few days' rest he will be better.

Compare Clothing and Prices.

Those thinking about buying clothing

must be in a predicament if they read the

different clothing advertisements. It is so

easy, with the aid of a little printer's ink,

to make a mountain out of a mole-hill. If

you are not acquainted with the character

and reputation of the different houses, the

best and safest plan is to make a critical

examination before buying. Go to each

and every store, examine the quality, style

and price. The Oak Hall will leave goods

and prices to speak for themselves. We

try to tell people in our advertisements

the plain unvarnished truth in as simple a

manner as possible. If you believe us, you

are safe, if not, look around and be sure.

We invite and urge comparison every time.

The Yukon Railway Bill.

(Weekly Sun—Patron organ.)

At the hour of going to press the defeat

of the Yukon railway bill in the Senate is

conceded by its supporters. Outside the

contractors and their business friends and

associates the result will not be received

with regret. The value of the grant of 3-

750,000 acres of mining lands to the con-
tractors was problematical. This part of
the bargain was, as Sir Richard Cartwright
well described it, "a huge gamble." There
is little doubt, however, but that the ac-
quisition by the company of large tracts
of land in the most valuable gold
bearing territory would have led to great
friction and probably serious trouble with
the miners. The attempt to make capital
for the scheme out of the fact that one of
the miners' delegates opposing it was an
American fell very flat.

The Crown's New Railway grant and the
revelation of the Deedmont C. R. Railroad
committee have left in the public mind a
strong distrust of all dealings between the
state, as well as the present, Dominion Gov-
ernment and railroad promoters. The
feeling of distrust has resulted in an abso-
lute lack of enthusiasm for the present
scheme, even on the part of those who saw
no special objection to the written terms of
the agreement.

We have no doubt that the commercial
advantages to Canada of the proposed rail-
road have been greatly exaggerated. If so
much trade depends upon its construction,
it will be built without the Govern-
ment requiring it to pay any territory or
other consideration, namely the State.
That it was an "all Canadian" route
shown to be incorrect. American re-
strictions, if any, at Wrangell were not
likely to be a hindrance to that city, but
the fact, even though it is a monopoly, at
the point on the coast. With an advantage
from twenty to fifty per cent. afforded
them by customs duties, Canadian man-
ufacturers, even though they are in the
thousands, are not likely to suffer.

Quinte Gun Club.

This new organization held a largely

attended meeting last evening in Mr. Geo.

J. Johnson's cigar factory, Ad. Starling,

President, presiding. They passed a set

of shooting rules and the constitution and

by-laws of the club and transacted some

other business. They propose buying their

birds by the thousand, thus getting a lib-
eral discount. The matter of grounds was
also discussed, but no decision was arrived
at. It is likely, however, the Columbian
clubs will again be used.

Striking Club will shoot a match here on

Eastern Monday, ten men a side, 25 birds

each. Kingston has requested the local

Club to send a team to that city, but they

will not go for the present. Membership

admitted for one week. Membership

tickets can be secured from the Secretary,

Mr. L. Hamilton, or from members of the
Club.

cious comedy, "The White Mouse," and

Mr. Donald Robertson and Miss

Brandon Douglas, are well known favorites

of the patrons and they will be greeted by large

houses at both performances. They have

a most excellent company, magnificent

of Hungerford. The ceremony was per-
formed by the Rev. Newton Hill.

Saves a Life at the

A TERRIBLE CASE OF INFLAMMATORY
RHEUMATISM PER-
MANENTLY CURED.

This is the season when Paine's Celery Compound does its Life Saving Work.

Scores of the best people in and around Roston Pond, P. Q., know of Mr. Morissette's wonderful cure by Paine's Celery Compound at a time when the best doctors said he would surely die.

The almost miraculous cure has made a deep impression on the minds of the thoughtful and earnest in the district referred to. Since Mr. Morissette's rescue from death, several victories have been scored by Paine's Celery Compound in Roston Pond, and to-day it is safe to say that Paine's Celery Compound is the chosen medicine of all the sick in that quiet town, and in every case is giving grand results. Mr. Morissette writes as follows:

"I have been given up by the best doctors of the United States. I came to Canada last autumn terribly ill, and had lost all hope, suffering agonizing inflammatory rheumatism. I was strongly urged to use Paine's Celery Compound. I gave it a trial as recommended, and the first bottle did me so much good I continued with the medicine until I had used seven bottles, when I found myself perfectly cured; indeed, I never felt better in all my life than at present."

I use every possible means to tell others of Paine's Celery Compound, and will always recommend it to those troubled with rheumatism.

Yours very truly,
WM. MORISSETTE,
Roston Pond, P. Q.

RUSSIA'S GAME IN THE EAST
Already Talks About Leaving
Duties at Tai-Lien-Wan.

Does Not Want to Give Britain a Pretext
for Occupation of Port Hamilton—Lots
of Money Was Lost Before the Treaty
Was Signed—Russian Press Jubilant—
Sir Charles Dilke Wants a Change in
British Foreign Office—Cable News.

London, March 31.—The Daily Graphic this morning says: "We understand that Russia is willing to give Great Britain assurances that, while Tai-Lien-Wan is held on the present leasehold tenure, the duties shall not exceed 7 1/2 per cent, which will assist the Tai-Lien-Wan tariff to that of any other Chinese ports, and will include the local duties. We believe that the object of Russia's withdrawal from Cooen was not to propitiate Japan, but to deprive Great Britain of a pretext for occupying Port Hamilton."

Headline Was Flying.

The Russo-Chinese Bank at Peking, it is asserted in a special despatch from Shanghai, disbursed 28,000,000 taels just prior to the signature of the loan of Port Arthur to Russia.

Consider It a Bluff.

Yokohama, March 31.—The official organs consider the British naval display in Chinese waters a mere bluff, and not likely to result in any action. They believe that, were England in earnest, she would not have allowed matters to reach the present pass.

Russian Press Jubilant.

St. Petersburg, March 31.—The press is jubilant over the Russian occupation of Port Arthur and Tai-Lien-Wan. It commends Great Britain to put the blame on its own shoulders.

The Vedomosti says that Russia, by assuming great responsibility, she must preserve the territory of Port Arthur by every means in her power. Russia indirectly takes China under her protection, and further exploitation of the celestial empire would give offence to Russia.

Dilke Wants a Change.

Sir Charles Dilke, the Premier and Foreign Secretary, should be cut apart.

London, March 31.—Sir Charles Dilke, advanced Radical, member for the Forest of Dean, Division of Gloucestershire, gave notice in the House of Commons yesterday of a motion to the effect that the conduct of foreign affairs during the past twelve months has shown that it is not to the interest of the country to have the Premiership and the Foreign Secretaryship combined in one person, and asked the Government to fix a day to debate the motion.

Mr. A. J. Balfour, the Government leader, First Lord of the Treasury and Acting Secretary of State for Foreign Affairs, replied, and stated that the Government would not do so, as the discussion would resolve itself into a direct attack upon the conduct of foreign affairs, and he explained if this was desired, it would be more convenient in the form of a vote of censure.

However, continued Mr. Balfour, there would be a discussion of the foreign vote, but only informal and inconclusive, owing to the absence of the Opposition. When the latter were submitted he expected a fuller discussion.

Sir Charles Dilke reported that he desired a discussion of the whole foreign policy, and not merely the question of China.

To this Mr. Balfour answered that if the Government received a representative request for such a discussion he would arrange a debate for the following day.

The House then adjourned.

Austria Gets the War Fever.

Vienna, March 31.—The Neue Presse yesterday announced that the Austrian-Hungarian Government intends to ask for 40,000,000 to 50,000,000 florins for the purpose of increasing the strength of the Austrian navy.

What Englishmen Say of Canada.

London, March 31.—In the lobby of the House of Commons yesterday three members of Parliament were discussing the grant of a new railway project given by the Canadian authorities, when one of the trio gave it as an opinion held by many that the Dominion Government was unwisely in being so generous, especially in connection with the Yukon Railway scheme.

Mr. Gladstone Took an Outing.

London, March 31.—Mr. Gladstone yesterday took a short outing in his garden. This is the first time since he returned to the house since he returned to Hawarden Castle from Bournemouth.

Spain Goes on Preparing.

Madrid, March 31.—The Pais says that orders have been issued to mobilize all the Spanish warships, and that a second expedition is being organized to the sea at Cadiz. The Balcara Islands, according to the Pais, are being fortified and military engineers are starting for the Canary Islands.

Good Past Show.

London, March 31.—It is reported on the Stock Exchange this morning that President Kruger of the Transvaal Republic has been shot and killed. The story was unconfirmed last night.

Money Paid Over.

The Owners of the Sailing Vessel, Willie McGowan and Ariel Heavily Their Indemnity.

Ottawa, March 31.—Sir Louis Davies yesterday paid over to the owners of the sailing schooner Willie McGowan the sum of \$10,000, as damages, in the case of the Willie McGowan and Ariel. The amount of \$10,000 was forwarded by the Minister of Marine and Fisheries, who received the money from the owners of the schooner, who were represented by Mayor Hermon and Messrs. J. H. and J. W. Rydman, who have been in Ottawa for the past few days. The McGowan was owned in North Sydney, B.C., and the Ariel in Victoria, B.C. Mr. Hermon will at once make the distribution among the owners.

Natural Gas and Tobacco.

It was quite a sight to see two hundred and fifty guests fill into the House of Commons and fill to overflowing the seats of the members. They were a fine-looking, representative body of men, each wearing a badge on which were the words "Knox Natural Gas," printed, and marshalled by Essex members, Messrs. McGowan and Cowan. They were received by Sir Richard Cartwright and Messrs. Mills, Patterson, Scott, Fielding and Mulock.

A dozen gentlemen spoke, the effect of their representations being that the supply of natural gas in the Province of Ontario is six miles long by half a mile wide, and judging by the history of the Ohio gas fields, the supply will last for a long time. A pipe line runs within sixty feet of a line in Knox, yet that town could not get gas, and for the same reason. A pipe line in Knox, yet that town could not get gas, and for the same reason. A Fatal Fatal Attack.

"So you want to sell this cattle?" said the Georgia farmer to an old lady who was carrying a dilapidated, forlorn looking animal.

"Yes, sub, hies is hard, an 'I blegee to part with him. It hurns me powerful to let it go, but—I needs de money, an go he mus'."

"Has he any good qualities?"

"Oh, yes, an' I want to say so many it take too long for name an' say."

"What he?"

"Well, sub, I want to say dat he has kicked in his day an' time. He once kicked a member of my family."

"Did he prove it?"

"I reckon it did, sub, kase what was left of him when we gathered him up looked purty fat!"—Atlanta Constitution.

CANADIANS WILL BE PROUD.

of the Railroad Tree.

Mr. S. R. Callaway to Succeed Dr. Chauncey M. Depece as President of the
Vanderbilt System—A Protege of Sir
Joseph Hickson Who began Life as an
Office Boy—Now Leads the Procession—
Sketch of His Career.

Toronto, March 31.—It will be a matter of pride to all Canadians, and especially the leading cities, that a native of this country has been chosen as president of the greatest railway system in America.

A despatch from New York states that the following announcement was sent out yesterday afternoon from the head offices of the New York Central Railway.

To carry out the policy of a greater unity of administration in the Vanderbilt system the following adjustment of the management will be made at the annual election of the New York Central and Hudson River Railway Company.
